PREFACE

Mystics [siddhas] are gracious, benign, and merciful people who live by transcending time and borders. They are sagacious who realize knowledge within knowledge. They are like power stations of spiritual wisdom that provide realization.

Human beings will perish. But Mystics [Siddhas] are pervasive and remain ubiquitous.

We all know about the group of eighteen siddhas. Do we know about the evergreen tamil poet who lives among us and also as one of us?

The wonder lives at Medavakkam, Chennai! Miracle lives there! Ancient Vedhas live there! Ancient Tamil lives there! Yes, Yaghava lives there! The wonderful mystic who knows everything – The mystic of my period, who is omnipresent, lives here.

A great Mystic [siddha] about whom the world doesn't know till now, a supreme spiritual teacher, a benefactor who bestows spiritual wisdom, he is a superior incarnation revered and celebrated by all the godly incarnations, the kalki avatar [incarnation] expected by the universe – he is that one and only Yaghava!

It's not at all a miracle that sudden magic springs appear in the garden of Yaghava. It's no wonder! Yaghava himself is water!

Yaghava is the air, water and star!

Yaghava is the one who drenches all the directions by becoming like a fluid form of mercy!

How is it possible that poetry flows out from an uneducated person like Ganges? From where does the poetry flow like floods?

Every word and every sentence flows like a river of life without interruption, without stumbling, without clinging to each other – 'This was called Ancient Tamil' -says Yaghava. Shouldn't we analyse?

Yaghava who speaks and writes in '**Inanyam**' language, which existed 5000 years ago, has said recently that Inanyam language was originated from Tamil language. The philosophy that 'World's first mother tongue is Tamil', is revealed by a saint of this world. Tamil lovers like me can rejoice over that statement. Is it not our duty to explore the same, and inform the world about our research?

Yaghava is praised by the kings and great poets of the earth, and each and every word of Yaghava is the elixir of the soul. That Elixir is displayed in your hands as a star on the paper, as philosophy of the eternal world, that descended on the earth.

Let Dharma [charity, good deeds] grow in this world through this philosophical rain that is gained by Tamil! Let the earth prosper!

Glory to Yaghava!

GANGAI SIDDHAS [MYSTICS]

BLESSED BY GOD YAGHAVA

He is an incarnation of God, born as a younger son among twins, to the couple Lakshmanan, and Isakki ammal in a farmer's house at a village named Ammanpuram, near the river Thamirabarani.

He was a beggar. His dress was only a bit of hip cloth in his childhood. His vehicle was Donkey. Dog was his companion. His enemies were Snake, Cuckoo and Fox.

The birds understood the Munivar [God]. His characteristic was similar to that of birds. He who knows everything, himself had the power to transfer his soul from one body to another body, even when he was a fetus in his mother's womb.

THE TIME: IT'S BEGINNING AND END:

Now it is 38000 crore years since the world originated.

The megacosmos was created by Gods [munivars]. Dhana muni, [Brahma] Thava muni, [Vishnu] Tharka muni, [Shiva] Vasiya, [Lakshmi] Nunva, [Saraswathi] Yanya [Parvathi] and the divine son of these supreme Gods and Goddesses, Inanya muni. [Naradha] Only due to these seven Gods and Goddesses, the whole world, the entire cosmos exists. There are 111 kaandams [zones or worlds in the upper world] in the upper world which includes 3 eternal worlds, [prapancham, abode of Gods and Goddesses, Eternal world] and 108 kaandams [zones in the upper world]. 'Lokam' means upper world, heaven. 'Yugham' means the human world.

Human beings like you also live in the celestial world. Birth and death exist there also. Human beings have an age limit of 1011 years. Karma, [sin] Dharma [charity, good deeds] exist there too. The celestial world is always like a bright day. It is only in this human world, we have morning and night. The upper world looks like the smile of blooming flowers. It has a pleasant smell of sandalwood.

The shape of the elephant's foot is flat. The shape of a turtle's foot is also flat. Oh humans! even your back is flat, your stomach is flat, your foot is flat.

Similarly all the worlds are flat in shape. The sages of Nakshathra kaandam [zone of stars in the upper world] do not sleep the whole day.

5000 years ago, Human beings lived with affection and wisdom in this world. They understood the exact disposition of Gods and acted accordingly. The Gods, [Munivars] Goddesses, [Mayas] Mystics [Siddhas] took birth in those days to teach affection to you. Knowledgeable persons, erudite scholars and poets were uneducated. During the ancient times, poets and scholars were disciples of godly incarnations. They led a happy life in this human world without illness and affliction in those days. There was no mad and there was no doctor.

People realized death when there was no temple or caste. There was only one race, at those times. During that golden age, human beings lived, by performing their duties, without any confusions and without forgetting the upper world, with kindness in a courteous way.

They worshipped land, water, air, sky, birds, Munivars [Gods], Mayas [Goddesses], Siddhas [Mystics] as well as their parents. It was the time that was free from lies, thefts or any kind of malevolent activities. They lived without sorcery, necromancy, ghosts, planets, eclipse, disorders [faults in horoscopes] or curse. Kings used to wander in search of Munivars' politely. The king ascended the throne and ruled according to Munivar's guidance. Kings lived with a realization that Munivars are immortal and kings are mortal. They lived without any riots and without any hostility attained salvation. Such was the ancient period 5000 years ago.

For the past 5000 years, the conspiracy of monsters, prevailed on the earth, upper world and as well as in three kaandams. [zones of the upper world] Inalvam, Inaisthuvam, Igaithuvam were those three kaandams. These kaandams became dreadful due to the Demon, Monster, Thadayavan and his 21 demonesses. This world also became miserable.

Due to the strength of the monsters, the Munivars, [Gods] Mayas, [Goddesses] Rishis, [sages of the upper world] Siddhas [Mystics] as well as human beings suffered and were harassed by the turmoil. Even the toads inside the rocks cried. All the living beings and birds cried. The snakes, cuckoo and fox laughed.

Yaghava was watching all these from his prapancham [eternal world]. The troops of the monsters imprisoned all the thirty-three crores of Gods and Goddesses at heaven and celebrated haughtily in an unholy manner. It was to rescue them 'Yaghava' emerged in this world as a human being.

GOD YAGHAVA SAYS:

GOD YAGHAVA'S BIRTH SECRET!

Air is latent, water is latent, land is latent, soul is latent, body is latent, heavens are latent, similarly divine secrets are also latent.

He came to this world to destroy the empire of the Demon, Monster, Thadayavan[Head of the evil creations] as well as his demonesses to rescue the thirty-three crores of Gods in his 54th birth. He attained Yagha Prapancham [Name of an eternal world] on 02nd January, 1986 after rescuing the Gods. The body that you see is only a fake one.

Yaghava has sent 111 crores of Gods, 111 spies, and also Inanya muni [Naradha in hindhu religion] on 11.11.94, at morning 5 am to destroy karma. [evil persons, sins, sinners] Kalinga war and karma war [war of destruction] will happen till 2005. Gods will only destroy. Dharma [virtuous people, charity] will be greeted with open arms. Karma [sin, evil persons, sinners] will be punished. Your soul is an enemy to your body. Soul will not perish. If the soul dominates, your body can't tolerate it. There can't be any place in this world, where the Munivars, Mayas, Rishis and Siddhas can't see with their divine vision. They can even see the trees and plants on the mountains. They grieve even if a tree withers. Won't they grieve if you wither? Shouldn't you have that compassion as they have? You must! Gods of the upper world are the heroes of vedhas.

Munivars are worried because you are living, by forgetting that you have death, as you were born. Air is the way for Munivars! [Gods] Air is the way for Mayas! [Goddesses] Oh human! Even for you, air is the way if you die. Sky is not far away. It is near only and this is not your place. You should not forget "Lokam". [upper world] Poverty is the noble quality of the Gods in the upper world. Munivars are not educated in this world. Similarly, Yaghava Munivar [God Yaghava] is also uneducated. Yaghava's immense wisdom is sublime. He shares only a part of it with you. Yaghava Munivar talks only about knowledge.

ADVICE:

'Living beings and birds realize the upper worlds. It is good for everyone if you also realize like them. Think of living like an ant. Honey bees help you.

Similarly, you also help others. If a tree matures, it becomes hard like a diamond. But if you mature and get older, your body turns sapless, and debilitated,' says Yaghava.

'Oh! Humans! Do your duty; not the riots. You must strictly adhere to work hard to reach an exalted stage. Whatever be the wealth, you gather and have it along with you, you become a sinner if you don't help others. There is a life if you are prone to think. You will also get a little peace. Silence is wisdom. Change your arrogance into talent, Change your enmity into affection, and Change your ego into kindness. Aim to live with humility, aim to live with kindness, and do not think to live ostentatiously. Dharma belongs to those who perform it. Curse of others leads to afflictions. If you commit any huge sin, then you will get diseases. What is the benefit you gained by running and worshipping and looking into religious theories? Think for a while!

Listen to the sound of the air. Listen to the direction of the sound. Listen to the ability of water. Realize the nature of plants. As you enjoy the beauty of the flower with both of your eyes, sit peacefully and listen to the knowledge. You will find the answer. You are a hero if you work. You are a hero if you don't persecute others. You are a hero if you don't commit sins.

There is no religion for land, no religion for water, no religion for grains, no religion for the salt that is grown without seeds. No religion for the upper worlds. Likewise, your mortal body does not need religion. Vain and feckless vigour do not add beauty. The actions of an ignorant person do not add beauty. The corpse can never be loved. Beauty is not a pomp. Education also is not a pomp. The beautiful peacock is not stable but its beautiful feathers are stable. Even if the peacock dies, its feathers have value. It is the beauty of beauty. Think. Solution is there.

Your beauty is not stable, your luxury, and your fancy decorative writings are also not beautiful. At your birth itself, I inscribed your deeds as destiny on your forehead. I carved beauty on the forehead. I was the one who wrote your

destiny. I was the one who ingrained a big tree inside a small seed. You should not forget that there is a day of death for you.

The 111 universes are flat. Even this Yugham [human world] is flat. One who reaps is a farmer. Similarly, the one who with his divinity, has achieved victory by gaining all the control in his forehead is a Siddha [mystic]. It is only the Siddha who supports your human body. The Munivars [Gods] create. The Angels protect. The Devis' [Goddesses] also stand supportively. Siddhas [Mystics] protect like a canopy. They don't become lame. Your body need not be fierceful. You don't commit any sins. Being a debtor in the debt world, you repay your debts and then come back to me. Do not say that you know everything, you live only in the cells. You drank the milk [water] showered by the sky; Then, You are fed by your mother. Do not ever forget your father and mother. I say to worship your soul, if you worship, there is peace. Worship the things that are alive. Do not worship the things that are not alive.

There is no life without Gods. There is no life without Goddesses. There is no life without Siddhas [Mystics]. There is no land without gold ore. There are no rocks without diamonds. There are no rocks without gems. I engraved Emerald, cat's eye, ruby and gems with the help of sound. They listen and respond to each other. Gods can hear it. Honey bees can sense the blossom of flowers. Plants delight when the clouds turn black and ready to rain. Farmers also delight. Definitely, there is happiness after every suffering. You can live by hard work. You can get wisdom by helping others. Modesty without enmity, is the key to affection. The sufferings will reduce to a great extent if every human in this world thinks and reacts. Think that knowledge is great. Never think of destroying.

A soul that is connected to a mortal body has birth only. Sins committed by the mortal body does not belong to the soul. The seed is also an Aathmavam [soul]. If we realise the seed then we can realize both soul and body.

You can realise the nature of the soul by your humility. You can't understand it by your authority. Body is only for the desire of your soul. There is nothing for the desire of your body. The duties of the body are acknowledgeable. It cannot be considered hostile. Soul is always an enemy to your body. If you stay calm, you can get to know your jeevathma. [soul]

It is good for you, if you are not egoistic. Goodness is three in number. One is to realise. Another is soul. And finally, the body. Think affectionately about all the three. How can we dare antagonism? There should be only affection, isn't it? You can't do anything, Can you?

Sarvam Sarvathithuva Nadham, [Inanyam language]. They also originated from the same place, where you have originated. It is only thorns that we need to safeguard the crops. Similarly, the high positioned Siddhas, [Mystics] have appeared from 09.05.1996 to safeguard you, and they roam around the world. Also, they monitor. Siddhas [Mystics] protect those who do their duty. Gods destroy those who create riots. It was started in 1986, continued from 11.11.1993 and then sufferings from 9.5.1995. Do not commit sins.

TIME AND CONDITIONS OF TIME:

Yaghava was the one who created the macro cosmos. Yaghava was the one who locked you in the womb. He was the one who created different faces distinct from each other in the womb itself. He was the one who divided genders into two and created the soul as one.' "The count of days to get conceived is 100. Similarly, the longevity of a human life is also 100. That's what you call it age. I have kept the time as 100 in the womb, at your birth itself' 'says Yaghava.

The period during which you ran, wandered as well as the time of your marriage is 25 years. The time spent by working hard is 20 years. Time wasted on sleep is 50 years. Time spent on shouting, by looking at the sky on your deathbed is 5 years. Those who have performed dharma are superior and they only attain the Lokam [upper world]. One who does karma (revenge, sin, ruthless act) has births continuously. Those who gave birth will die. And those who are born will also die. This is called the condition of time.

SIDDHAS: [MYSTICS]

Just as there are Siddhas in 111 Kaandams [zones of the upper world] there are Siddhas [Mystics] in this human world too. There are many categories among Siddhas. One is Nadhi Siddha, [belongs to the river] other is Idukaadu Siddha [belongs to the burial ground], 333 Gangai siddhas [belongs to water]. 333 Gangai Siddhas belong to your nerves. There are 333 varieties of plants. They have noble

qualities similar to that of plants. 3600 years ago, people led a prosperous life, while Siddhas lived in this world. After that, even Siddhas suffered because of the nefarious activities of monsters. The Rishis of the upper world told Yaghava that human beings are living with diseases and troubles. God Yaghava suffered a lot, to save the people, dying from diseases, as his skin was pierced by a cut. [Note; In 1996, he had a cut in both sides of his back right from his arm to hip, and it healed naturally. In between 1999 and 2000, he showed the palm of his left hand, and there was a fissure, which was red in colour and said ' I am bearing your earth on my hands and this fissure red in colour [like a red line] indicates the destruction of the world, and he added if it is in white colour [like a white line] it is an indication of prosperity.] He took 54 births for you. 'Oh! Sinner! By having a mortal body, without sleep, without relief, without peace, you are wailing, weltering in agony, and wandering around. That's why, it was decided that your world should get peace and happiness from the Rishis [sages of the upper world]. As instructed by God Yaghava, starting from 1.1.1995 to 9.5.1995, all the 333 Siddhas sat inside the Ganges [a holy well] located in the garden of God Yaghava at Pattinapakkam, Velachery Road, Medavakkam by 5 am on 11.5.95. As a result of this, water gushed from the holy well. The gold in this world is hidden in the ground. Silver is also hidden in the ground. Brass is also hidden in the ground, even the gems and emerald are hidden in the ground. If all those are hidden, then my Siddhas are also hidden in the holy well. This is the only medicine to cure your diseases" says Yaghava.

In ancient times, Siddhas took birth. 3600 years ago, they lived at mountain peaks, and foothills, not in the later times. They will take birth right from 9.5.1995. Jananam means water. Jananaha is air. Pranaha is an embryo. This was the initiation of the Siddha's distinctive characteristic.

Children stay at the place of their father. Father is Yaghava. Mother is Vasiya. All the Gods and Siddhas belong to them.

Siddhas are ensconced along with their ideologies in the garden of God Yaghava. 333 plants and medicinal, divine herbs belong to him. 333 nerves belong to him. These are the seeds and these can also be considered as vigour. There is a bliss in the water which helps to control the vigour of your body. Even your body needs water, isn't it? That is the medicine. The water has 3 characteristics. Siddhas have come to this world from Yagha prapancham, Yathuva prapancham

and Yaagathuva prapancham [name of the eternal worlds, abode of Gods, Goddesses, and Siddhas] at the behest of God Yaghava. This fortunate and blessed year emerged on 9.5.1996. They are immortal as they used to be in the ancient ages. They have emerged after 3600 years. They will be benign, gracious and charitable by birth itself. Be charitable in this world. Yaghava is the one who has the knowledge of the entire universe. The one who is more matured and knowledgeable than you will sit in a clean water, [means purity of soul, virtues] They will consider the sacred Vedhas like an empyrean. You realise it by yourself.

The land belongs to me. The water showered by the sky belongs to me. The ingress of sound in the plants is intaken by the four entrances of your nose, mouth, eyes and ears, in the form of Sanchi nadham [divine fragrance] which by a gravity, absorbed by your soul, and the absorbed force is assimilated in the chambers of your head. All these are hidden. To make the entire humanity live without afflictions, Siddhas have descended earth through Prapancham, [eternal world], Prapanchathuvam, Prapancha prayathuvam. Like this, everything is in the form of pranam [air], light, and vugandham, for all the living beings and birds, even for human beings like you, pranaham resides in you. 333 portions of sound are hidden in the Ganges [water of holy well], of your human world. There are crores of globes. There are crores of angles. Oh! Humans! All that is for you! Pure water is for you! Siddha's holy water is for you! All of you realise!

As the Siddhas consider Gods as their parents, they reside in the dwellings of Gods, like children to safeguard them. The place in which the Siddhas reside will not perish. They will reside near God's dwellings. You can find the answer, if you realise.

The lamp that is untouched will not burn bright. Monsters were avenged by Gods [munivars], Goddesses [mayas], and Rishis [sages of the upper world] in 3 kaandams. [zones of the upper world] Monsters will get suffered by Gods [munivars]. Demons will get troubled by Goddesses [Mayas]. Monsters know very well that they will be suffered by Rishis. When the Monsters prowl after Siddhas to seize them, they will disperse, as they can't be captured. God Yaghava created the land. A Rishi said 'It is not beautiful to have only the land'. 'What do you want?' asked God Yaghava. Rishi answered that he wants beauty. He created plants as they were considered beautiful. As they asked for one after the other, God Yagahva created human beings, also created plants, birds and fishes for

human beings to realise. The six incarnations next to come will have the characteristics of fish. They are like fish which eat the dirt by removing it, [meaning, relieving people from diseases]. Fishes would eat the plants in water and understand the characteristics. Similarly, water also removes your dirt. Oh! Humans! You are the one who walked on the floor. You are the one who removed your dirt with water, and the one who removes the dirt in your body [diseases] is Siddha.

Siddhas were created by God Yaghava. All the Gods [Munivars], Goddesses [Mayas], and Rishis [sages of the upper world] were also created by God Yaghava. There is no age limit for Gods. Only humans have age limits. As how the kite made by you has a limited age, all that is created by me and you also have an age limit. Gods are immortal. The places where they lived will help for your progress. God's holy places are those where the inner self is realised by divine people while they sleep..and like that, in those places of God, you get happiness and peace, while you are awake.

There is no need to worship and pray. If you realize and worship the virtues and sanctity, it is considered as Vedha. Siddhas deserve exalted reverence.

Saptha Shanti shanti saptha haaya shanti sapthaaruvaaya sapthathvarai naaya shanti. [Inanyam language] You should worship like this by chanting these lines of vedhas. Keep your hands in a sliding position while praying. Your hands should not be in an upward position when you bring both hands together, while praying. While you worship Gods, [munivars] you have to raise your hands above your head and pray. While you worship Goddesses [mayas] you should keep your hands straight to your chest and pray.

“Thuthi Thuthiyantham Thuthiyanthaha

Thuthiyanthava Thuthi Thuthiyantham Yanthavahaayava”

[INANYAM LANGUAGE]

All the people who live in this world are those who follow Siddhas. Siddhas have the characteristics of the soul. They may share their experiences, knowledge in their respective languages. Understand the nature of salt. Knowledge is Salt for everyone. The world functions because of that knowledge to question and answer. Sathyam, Shanthi [The truth and peace] refers to your soul and body.

Sathyam Shanthi! Sathyam Shanthi! Sathyam Shanthi! refers to Gods. Dhana muni, [Lord Brahma in hindhu religion] Thava muni, [Lord Vishnu in hindhu religion] Tharka muni, [Lord Shiva in hindhu religion] Vasiya, [Goddess Lakshmi in hindhu religion] Nunava, [Goddess Saraswathi in hindhu religion] Yanya.

[Goddess Parvathi in hindhu religion] Destiny, body, your dharma [virtuous deeds]and karma[sins] all these are subjected to Inanya muni [Naradha in hindhu religion]. Inanya muni is the head of all Siddhas. Saadhunuvaayave saadhuthvanaahanayave yaava pravathvanahaayave. [Inanyam] Siddhas do not refute Inanya muni's words. Guess it with a good perspective. Guess it in a positive manner. These are written only for your realization. There will always be a connection between Inanya muni and Siddhas. Air is the way for Inanya muni and water is the way for Siddhas.

They will be in the Ganges [holy well] during daytime. They will stroll like human beings at night. When the branches have flowers, the fragrance permeates in the air. As such if you have the maturity to behold the flowers, experiencing its fragrance, you can behold Siddhas too. You can see them from 9.9.95. They have come now only after 3600 years. One who accomplishes this is Inanya muni. They have come for your well-being. Do not read this as a mere story. Siddhas know about the characteristics of Rishis. Rishis and Siddhas know very well about the deeds of human beings. There is no place without sound. There is no world without light. There is no universe without Gods [munivars] and Siddhas. Shantham Sathyam sathyahaaya sathyam sathyam shantham shanthi. [Inanyam language]

Many times, keep these Vedhas in the chamber inside you. [meaning, keep it in mind] It will take time to realise Gods and Goddesses. You can't achieve anything by merely looking, like the birds reach the place that they see. You think to attain Lokham [upper world]. What is that water which you haven't bowed down to consume even after seeing it? [sea water]. What benefit did you get by worshipping the water [sea water] which is not useful to you? Do not worship anything that is ineffective. Worship with knowledge. Worship holy water.

All those that were recited for the past 3600 years were false Vedhas [scriptures] and false ideologies. That is why you all live in a pathetic condition. The word 'Siddham' means affection. In ancient age, the ideologies inculcated affection, and maturity. Those ideologies were even there 500 years ago. People

lived unhidden without any fear, but nowadays you are living by hiding yourself with fear. You are not living with affection. You are living with religious devotion. Religious devotion will not help you. Like your body which becomes useless after your death, your religious devotion is also useless. If you work hard, it is good for your world, virtues and ideologies.' Siddham 'means living together.

In ancient times, Siddhas didn't stay in one place forever. There are many characteristics among Siddhas. You are going to suffer till 2005. You will get 'Adhi siddham' but you can't get 'Siddhantham'. 'Siddham' means contentment. 'Siddhantham' means serenity. When you attain maturity after 2005, there will be affection. There will not be any government or administration. There will be only hard work. You will not worship the dumb stones during those periods. You realise it by your unquenchable thirst. You need to be profoundly wise to realise Siddhas.

There was a period in the past, when Siddhas led a holy married life. There is a period in the future, when the Siddhas will lead a holy married life. Even a person who is blind, lives with family. Siddhas will also lead a holy married life, though they lead a vagrant life like mendicant friars. They will not lead an ascetic life. Ascetic life lacks purity. In an ascetic life there is no hard work. Your condition will become so pathetic, if you lead an ascetic life by renouncing married life. Never lead an ascetic, religious life. The misery came to the whole world all because of your dance. Is a dance necessary for your false story? [religious dramas] If people realise themselves, their deeds will be affectionate.

HUMANS! LISTEN CAREFULLY!

You, the one with a fake body, think and realise! In ancient times, there was truth. But now- a- days there is only falsity. 3600 years ago, there were no temples and ponds. Where did the Siddhas reside? They used to sit under the shade of banyan tree, peepal tree, Fig tree, Coconut tree, Mango tree, Palm tree, and Goose-berry tree. In this creation of 6 periods, even after having an unstable life, if you don't forget the Lokam [upper world], that is Sathyam and Shantham [Truth and peace].

Siddhas do not expect any returns from anyone. The trees that grow in the mountains and forests do not expect anybody's help. The places where Siddhas

live will not perish. Siddhas were sent by God Yaghava, God Inanya, and Goddess Vasiya... There are vast concepts, opinions regarding this, which cannot be written in words. Get matured! You will get everything. You will be benefited by maturity. There is no seed for salt. Munivars [Gods], Mayas [Goddesses], Rishis, [sages of the upper world] Siddhas [mystics] have neither birth nor death. Why do you scream when everything is calm? It is good for the world, if you become silent and stay calm. You are like an unstable spin-top, which spins. Find the answers with your realization.

All the worlds are flat. Do not say that they are spheres with your unethical scientific knowledge. Can your science bring a dead person alive? Or else can it create a seed?

What can Siddhas do, when your own scientific inventions have been made in such a way that it takes revenge against you. Are all these essential for the body that's going to decay? This was not there in the past 3000 or 500 years? It was not there even in the past 500 years.? You are the reason for your sufferings and not the Gods. Don't forget!

Siddhas are like peacocks. The dazzling feathers of the peacock dance beautifully. The upper world appears just like the beauty and gleam of the feathers of a peacock. The petals of spanish cherries have a fragrance. Peacocks have beautiful feathers, but they are not proud about it, and that is maturity. What is the peace that you have gained from your vainglory? Even if the peacock dies, its feathers were used by human beings, and also by the kings of ancient times. There are many facts and wisdom hidden in the feathers of the peacock. Perceive acutely! Plenty of questions and answers are there!

Siddhas are not humans. They are mysterious incarnations. Humans cannot become Siddhas. Siddhas will take birth like human beings, they will undergo plenty of sufferings, by hiding themselves in the forests, and they reach your soul with their wisdom, swiftness and affection. " Don't look into religious treatise for your mortal body" are the words enunciated by Siddhas. We can understand their characteristics by their words, and by their birth. Their birth is endowed with divine blessings of seven Gods and Goddesses.

In this world, after completing their duties, they will not endeavour to reveal themselves if you are righteous. They will speak the words of wisdom

articulately to make you realise. Their flow of words will shower highest wisdom. They will not evince interest to see you. They will take birth from their mother's womb and without taking birth they will sit in the air or Ganges [water] invisibly also. The Ganges milk [water of the holy well] is elixir. Those who have gained by that elixir [water of the holy well] will point out its salient features and its paramount significance. In ancient ages, Siddhas have taken birth. Kings wandered and searched them. Whom do they search now? Think! I have not seen anyone from 1941 to 1995? Did you see? If you have talent, you will not be arrogant. Change your arrogance into talent. It is a benefit for the world.

All my Gods [Munivars], Goddesses [Mayas], Siddhas [Mystics], are beggars, and like vagrants. They don't live a family life. Forest is their living place, and the shade of the tree is their refuge. Only poor people will alleviate their hunger. Rich people do not know about sufferings, and hardships. Only poor people know about suffering and joy. Poverty is not everywhere, and poverty need not be considered as inferior. When you realise your inner- self, you get satisfied. In such wise, when you realise the strength of Gods, and Siddhas, you will not crave for money. There is a lot of wealth and money in your savings account, but in your death account, you are alone. I pity you.

The best direction to pray is north and east. Don't circumambulate yourself while you pray. Do not become a victim of ignorance. Don't get deprived of spiritual bliss. Do not pray facing west. If you pray facing west, you will suffer. If you pray facing east you will get abundant wealth. If you pray facing North. it will lead you to the spring of prosperity.

Rishis [sages of the upper world] sang the praise of God Inanya. He will take his form and birth in the air. He is immortal. Flowers provide him optimum comfort and nothing else. There is no one who has the eligibility to consume water as blessings from Saints and Gods. By looking at the sufferings of human beings' Siddhas have descended to the earth. As the seven Gods and Goddesses decided to give happiness and comfort to the entire mankind, and to deliver them from their griefs, Siddhas have descended earth to relieve the extreme sufferings of entire humanity, at the behest of God Yaghava. The holy water is a powerful medicine for those who are harrowed and mystified with distress, and diseases. In this world, that holy place is situated in Munuswamy Nagar, Velachery Road, Medavakkam.

The soul hides itself in the womb. The same soul takes the form of a mortal human body. In the three classifications of - Aathma, Yathma and Yaghathma, the soul is cloaked in the form of youth, adulthood and declining years of senility. Soul takes the form of the human body. It is self advantageous. The self benefit of the soul is unattainable by the body. Soul is the light. The word 'Inaiyavam' means uterus, the womb. There is a chamber inside the chamber of land. The human body will perish. Soul is immortal.

Mind belongs to three kinds of 'Krantham'. Krantham classified as three. The three types of fluids, salt water, bile water as well as blood, in a human body. And these three classifications also denote light, heat and consciousness. If you realize the brightness of that light in your inner consciousness, at an appropriate time, you will be benefited. Intestines are three – large intestine, small intestine and rectum. All these are hidden. The soul is hidden in the head, which is monitored by Siddhas. It wanders initially in the four entrances of your body, and later on in the seven entrances. (7+4=11).

I am telling you to live [way of living]. You realise that and act accordingly. Siddhas, along with their characteristics, can be found only here [Yaghava's garden] and cannot be found anywhere else. Whether you are a Dharma [virtuous, charity, good people], or Karma [sinners, evil persons] the judgement will be given according to your deeds in Lokam [upper world]. As a result of that judgement, you take birth in this human world if you are a sinner. If you commit huge sins, you will get many births. But still, I am teaching high philosophies to you so that by following my words, you will be able to live without diseases. Let whatever may be said by whomsoever, one should have the power of discernment and ability to understand with sharp vision. First you have to realise whether you are right.

You are wandering around temples and ponds. It was not like this in ancient days. You have not wandered anywhere for 34,500 crore years, now you are wandering hither and thither for the past 3,500 years. I am telling you of high morals with an expectation that you will realise yourself and also do good deeds. If you start to think in this world, your actions will be good.

Soul will never forget the path by which it travelled with distress, from the upper world to earth. After a long time, when the soul attains the maturity of

salvation, by throwing away the mortal body, it will enter into the eternal body of the upper world. The soul will never forget the upper world forever.

Vedhas [original divine scriptures], belong to Yagha prapancham. [name of an eternal world] Saptham [sound], Sathyam [truth] and Shanthi [peace] also belong to Yagha prapancham. Yaathuva prapancham [name of eternal world] is considered as splendiferous among all the worlds. The divine living place of Gods is an eternal place of realizing the rare excellent wisdom. There are 333 prapancham. [eternal world]. Vedhas originated from Brahmaloakham [name of the eternal world where Lord Brahma dwells]. only. The world of Brahma is in itself an eternal world. 'Brahmam' means light, and growth of the light is salvation and salvation is charity.

If there is no kindness in a family, that house will be surrounded by darkness. If there is kindness in a family, that house will always have fragrance [happiness] without any ill-treatment.

Though you live together, you are after all a human being who will enter into the grave one day or another. Don't forget this philosophy.

You worshipped the perennial sea water. Can you drink even a sip of that sea water? I found beauty even in that useless water in spite of its wrath.

Oh, intelligent humans! Don't dominate! Is dominance required for a kind body?

Is beauty necessary for the body which is going to decay? However, it is a body which will die and perish. Don't give importance to beauty. Give importance to knowledge.

You can understand the power of air from the smoke of fire.

The wealth and properties that you have acquired by hard work will last forever and that righteous wealth will help you.

The wealth that you have acquired by cheating others will be grabbed and shared by covetous persons, when you fall ill. Never forget that your wealth is a punishment for you.

You will surely get water to quench your thirst. Truth will get Justice. As a result of the sins you have committed, your body will wander desperately to live.

You will realise all the sins that you have committed, only on the day when your body will suffer with ailments. Only then you will die.

Never forget that Gods [Munivars], Goddesses [Mayas], Rishis [sages of the upper world], Siddhas [Mystics] are astute, shrewd who live mysteriously without revealing their identity by disguising themselves. 'Inanyam' is the language of Gods, Goddesses, Siddhas, birds and living beings. You speak different kinds of languages now. Your soul belongs to a single entity. For all those who have born and going to born, the sound is one, the soul is classified as three, krantham also three. The three krantham refers three kinds of fluids in your body. People can understand Inanyam language. Inanyam language, can't be spoken, but soul can realise it. Destiny and Inanyam language belong to the same clan. Inanyam is also a clan like the clan of the soul.

CHARACTER AND CHARACTERISTICS:

Do not reiterate that character and characteristics are predetermined and granted by God's will. Everyone told you to love. Don't think about Yaghava also in the same way. All educated people told you to love and they instigated your desires, but diminished your knowledge. For the past 200 years, there was Kala Kalingham [destruction, chaos]. Yaghava is saying this for the debt which he has to owe to the world. Yaghava came to this world to pay his debts. But still, Yaghava is saying it to you with his duty consciousness. He is Yaghava, who came to this world to accomplish his duties. This world is like a rental place. you have seen fragrant flowers, which gives happiness. Have you ever seen any human being like that!

Yaghava's duty is to protect sacred people, who are filled with purity and sanctity. Killing the vicious and wicked is there forever. This is the command of God Yaghava. Your mother who gave birth to you, also suffered a lot like you when you were in her womb. She suffered for about 300 days. He who gave the semen [Father] worked hard for you. She who bore you [Mother] suffered a lot. Gods were responsible for all these. It is not a game; Why is this sin ridden body not thinking about it? Godly incarnations gain a lot by their mothers. Father toiled and supported you as a bread winner of the family. Thus profit of grain by father. Think with good knowledge!

Do not read this as a story. He who wandered around the streets, being a God, [Yaghava] is showing you the right path.

In this world, the clan of Gods are all mysterious incarnations. They don't like to be praised by the learned people, and educated fools. Farmers grieve if the land dries. Like that, if you suffer, the birds and Gods will also suffer. Do not forget this forever.! You were born, lived and died, Where did you get peace? Do not forget Lokham [upper world]. There are crores of Rishis [sages of the upper world] in the upper world. These are the three characteristics;

There are three kinds of utile air and one inutile air. If air blows from the direction of the south, there is rain. When the air blows from the direction of the east and north, there is rain. When the air blows from the west, it will produce heat. It will also destroy the fetus.

Similarly, in your birth time your air [soul] is fresh and pure which is called Aathmavam. In your living period, it is called Yaathuvam. At the time of your death, it is called Yaagathuvam. You lived in water [taking birth from semen]. You wandered and ran around the land. Heat [warmth] has crores of meanings. For fertilization, the womb needs warmth, water, and egg.

WHEN YOU TAKE BATH:

“PRANA PRANANA PRANAHA” [Inanyam language]

You chant these lines of vedhas thrice. Look at the sky and pray. If you take a bath using sandalwood, then the human body which is going to die will get peace from that dead tree. Sandalwood means Sanchi nadham, [divine fragrance] Saptha nadham, [sound] Saptha geetham [sound of air]. For all your afflictions and curses, the Ganges of Siddhas [holy water of the holy well in Yaghava's Garden] will give sublime wisdom. For all your adversities and curses, Sandalwood gives Sanchi [divine fragrance] as a relief. If you take bath at your early age itself, don't forget that it is like manure for crops.

If you drink the holy water, it will heal you from your diseases and afflictions. Those who are affected by demon's witchcraft, will be relieved from the witchcraft if they take bath in the holy water. If unmarried persons take bath, they will get married. For all those who are affected by curses, the sacred water

will abate their curses if they take bath in that holy water. Those who are childless and pray for a child, will be blessed with a child if they take bath at an appropriate time. If your family life is full of darkness, [sufferings] your life will become bright and beautiful if you sprinkle this holy water in your house. If you wash your face with this mysterious holy water when you feel dull, your face will bloom like a lotus. If you take a bath in the holy water, you will never take births as hunchback, blind, dumb, deaf... If you take a bath at an early age, you will get rid of diseases and misfortunes. The characteristic of Siddha is fragrance. If you realize it, then it is good for the entire world. Rishis belong to Vedhas. Goddesses belong to flowers. Siddhas belong to divine herbs. Inception is wisdom. Wisdom is inception. All the 333 Siddhas, consider wisdom as sweetest of all... Do not forget that Siddhas have descended to earth after forty-eight thousand crores of years which is going to extend for crores and crores of years. The shade of the tree is for your body heat. Well water for cleaning your body's dirt. River water for crops.

All the 333 Siddhas belong to the nerves of your body. Goddesses are for your soul, Gods are for destiny, Vedhas are sound for your ears. All the three fluids bile water, salt water and blood, 23 eyes, 11 entrances of your body are subjected to the competence of Siddhas. It is good for your body.

That which conceives as a fetus is water...That which made the two dumbs to merge is water. [man and woman]. That which entered the fetus is water. Womb is in itself water. That which takes birth is water. That which is used in the death ceremony to clean the dead body is water. That which you drank to survive is water. That which helps to relieve you from diseases and afflictions is 333 Gangai Siddha's water. That which is used for marriage rituals is water. That which is used for plants is water. That which is used for charity is also water. You can neither seize the water, nor measure the sky.

There are five classifications of sound underneath land. They denote the five vedhas. There is no place without water. Can you live without water? The Gods at heaven do their duty. Even if you do your duty, you will get peace. There can be places without you, but there cannot be places without Gods, Goddesses, Rishis, and Siddhas. There are plenty of questions and answers regarding this...

He destroyed the wizardry on 9.9.93. He destroyed the planets [un auspicious consequences created by planets] on 11.11.93, 1.54 am. God Yaghava

weakened the strength of diseases and afflictions on 9.11.94. The almanac will be destroyed. There will be no seasons for rain. Sun will change its direction. New variety of stars will appear. There will be only accounts of destiny [good deeds and sins]. In the mausoleum of God Yaghava, there are three supreme Gods, three supreme Goddesses, God Inanya, 111 crores of Gods, and 111 spies... This place will dazzle with brightness. You have to follow silence here.

It is a peak time for Gods, Goddesses, Siddhas, in this world from 11.5.95. The Gods and Goddesses will take birth and teach virtues and knowledge. There is no life because of the temple's tower. [worshipping in temples] There is life only because of your good character. Don't see days and stars. You can achieve anything by your good behaviour. You will get prosperity after 2005. Farmer will rule the nation, The world will be happy. There are many more things to happen. Only a few lines are bestowed to the world...The concepts narrated by him are written. Consider his advice as sacred ancient scriptures of olden days and follow carefully.

At the morning of 11.5.95 Siddhas descended in Ganges [holy well] at the behest of Yaghava. Water gushed from Ganges [holy well]. Sky also showered. Seasons will only change. If you take a bath and drink the holy water your Aathmavam [soul] will rejoice; and also, your body. There are questions and answers.

Vasi vasiyanthahaaya vasi vasiyantha haayava naadham nadham naadha pranahaaya vasi vasithuna vasiyanthaha vasiyanthana vasiyanthathva vasiyanthaha vasi vasinuna vasiyanthaha yaghapravathvanahathayavasi. [Inanyam language]

Keep this in your mind and you will get supreme bliss.

TIME: ITS BEGINNING AND END.

- You listen to the words of mendicant friars, with your sharp wit. Mendicants are vagrants and also, uneducated.
- God Yaghava advises knowledge. He says ' Oh humans! Do your duty, do not create riots;
- He says "Adhere to work hard to progress.

- He says 'Don't be interested in other people's affairs'.
- Those who gave birth will die, and those who are born will also die! This is the condition of time.
- He says 'Destiny is the answer'.
- He says that "Whatever wealth you may accumulate, if you don't help others, You are a sinner'.
- 5000 years ago, people used to worship land, water, air, and parents only.
- There is life if there is self-restraint. There is peacefulness to some extent. The concepts and the teachings of Yaghava are always good to the entire humanity of this human world. If we think and act accordingly, then it's good for the world.
- What is the use of following religious theories? What is the use of worshipping by running hither and thither?
- What is the use of religious treatise and omens you find now, which were not found to be useful in ancient days?
- Live like an ant. Honey bees help you, like that you also help others.
- Living beings realise the sky and all the worlds. Birds realise the sky and the upper worlds, if you also realise, is it not good for the world? If you work hard, you are a hero. If you realise yourself, you are a hero. If you don't harass others, you are a hero. If you don't perform sins, and avenge others, then you are a hero.
- Silence is wisdom. Your fake body does not need religion. There is no religion for the land. There is no religion for the water. There is no religion for the grains. There is no religion for the salt that grows without seeds. There is no religion in the upper worlds. If you realise yourself, is religion necessary?
- If you worship the air, you are blessed with affection. If you worship water, you are blessed with wisdom.
- Gods are all like vagrants in this world. Even if you see the place where they lived, you will get wisdom. If you realise what they say, then you will get affection and maturity.

- The Rishis are reading the divine books in the sky. You will get that in the form of light of wisdom. Then, you will be kind. You will be peaceful. You will live without diseases. Consider and accept the words of Gods as elixir. Gods means Munivars.
- You are mortal but Gods are immortal. Listen to it being charitable. Listen to it with your wisdom. Do not praise it as an imagination or story.
- When you are not able to realise your soul, what is the use of your education? Did you learn to be affectionate? Or, Did you learn to show off your vanity? Did you learn only authority? You shot only the body with your violent, ruthless gun. Is there anyone who shot the soul? Is there anyone who can destroy the seeds? There can be someone who destroyed the trees. Is there anyone who destroyed the seeds? You realise by yourself. On this basis, there can be someone who destroyed the body. Is there anyone who destroyed the soul? How many troubles because of this dumb money? Can your dead body and the money made by you, be equated with the flower of a plant? Does the dead body and your money have the characteristics of a flower? I know about all my 54 births.

You Realise it by your morality. Behave like a dog. If your actions are affectionate, will enmity rise? If you realise yourself, will you get disease and adversity? Are not these diseases that you get, an outcome of your sins committed out of your ego? Is it not the curse of others? Isn't the holy knot that you tied to her precious? Then why do you give up the quality of charity? Why do you lose your wisdom? Why do you become pitiable? Vain and feckless vigour will not add beauty. The actions of an unknowledgeable person will not add beauty.

Dead body cannot be admired. Dead gold is beautiful. Dead silver is beautiful. Dead copper is beautiful. The seeds that disappear into the soil are beautiful. On the onset of rain showered by the sky, the seed sprouts and smiles. Oh sinner! when you disappear one day into the soil, only the termites will smile. Is there anyone who saw you growing like a tree after getting buried in the land? [like seeds] You smiled while you were born. Ran and wandered hither and thither. Smiled at the time of marriage on the grand wedding stage. By bringing two individuals [man and woman] together, I made you born as a human being as an outcome of your mistakes committed by you in the upper world...Will this inferior

birth be useful to the land? Does anything happen as you wish? You gave birth to two or three children. Did you get any happiness? If you get that happiness, you will forget me! I pity you! I pity your pathetic condition! You are not thinking that this body will decay! What can I, Yaghava, do?

CHARACTERISTICS OF VEDHAS:

There are 5 Vedhas.

1. Pranam 2. Saptham 3. Hariyantham 4. Krantham 5. Shanthi 1. Aathma, Yaathma, Yaagathma. These three classifications belong to the sound of your body. All of the vedhas emerged from sound. Rishis read the divine vedhas. There are crores and crores of vedhas. In this world, you live only for a short stint. Vedhas means fragrance. 'Prana Prana Pranahaaya'. [Inanyam language]
2. Saptham means sound. It is the sound that keeps your body in movement. You move only because of Saptham [sound].and also living beings, birds, honey bees, toads inside the rocks. Saptha Sandhadha Sapthaha. [Inanyam language]
3. Hari Hari Hari Hariyanthahaya hari. [Inanyam language] Hari is that which makes you realise about yourself. Realising by observing plants. Realising by observing Gods, Goddesses, and Siddhas. Realising by observing the light.
4. Krantham means Kranthahaaya Krantham Kranthath vanahaaya Krantham. [Inanyam language] Krantham is that which has gravity. It is Krantham that conceives. Krantham is Inayavam. [that which unites] There are crores of meanings for Krantham. Krantham denotes both male and female in all categories. It refers to all worlds. It refers to the fragrance of heaven.
5. Shanthi prathunaaya shanthi vugandhahaaya shanthi sapthahaya shanthi. [Inanyam language] Shanthi is the origin of sound. It also denotes the state, when your body doesn't get afflicted, and when your body doesn't get arrogant. Rishis gives maturity to your soul, your body, plants, living beings, and birds. The wrath of the Gods [munivars], Goddesses [mayas], and

Rishis, is Sathyam, Shanthi. [Truth, peace]. Sathyam, Shanthi. [Truth, peace]. Sathyam, Shanthi. [Truth, peace] This is the hidden meaning. If you keep these words in your mind, your life will become prosperous, Hard work will become heroism. Helping each other while alive itself, is called Dharma [charity]. These were the good characteristics that prevailed 5000 years ago. Do not nurture enmity. Attain maturity. Do not expect from others in return. Truth is peace.

To worship Gods: "Sathyam sathyahaaya sathyathvanahaaya shantham"
[chant these lines in Inanyam language]

There are crores and crores of characteristics of vedhas. If you listen to the vedhas at your young age itself, it is beneficial for you. In the ancient ages of gold coins also, Vedhas were not available. As there are no vedhas, the world is suffering from famine. To realise vedhas, many births are required. It will take plenty of time to realise vedhas. Those who realize vedhas will not indulge in sinful activities and avenge others. Vedhas belong to everybody in this world and it is not for one particular clan. If you pretend that you know everything, then your false pretence cannot be considered as vedhas. You can realise the entire macrocosmos, with the characteristic of vedhas. If you realise vedhas, you will not lie. You will not accumulate wealth more than your necessity. You can realise vedhas from the waves of air. You can realise vedhas from living beings like cows. You can realise vedhas in pregnancy. You can realise vedhas from the flower of a plant. You can realise vedhas, when you sit under the shade of a peepal tree. You can realise vedhas, when you sit near the bank of a river. There is no shape or form for vedhas. For vedhas, pretence is not required. Is there any shape for the waves of the air? Is there any form for the sky? The land is air and the air is land. Vedhas are for all those who were born in this world, and there is no inequality in this. In all 111 upper worlds, vedhas are considered as salvation. The Gods of Nakshatra Kaandam [zone of stars] can realise the mysteries of my creation. For a modest person, ostentation is unnecessary. For a fake monk wearing saffron clothes is unnecessary. The nature of clothes should be similar to the nature of salt. [white] Gods wear only white dresses. They wear the towel for shoulders, and they wear cloth down to the knees, and a bit of hip cloth. There are crores and crores of secrets hidden in vedhas. Even after realizing and knowing the fragrance of flowers, do you need to decorate the corpse with flowers.?

There is life if there is modesty. Do not become arrogant. Those who are arrogant, their life will waver like agitating waves of sea. Truth is the only proof.

Listening to Vedha is prosperity. Need not realise the meaning. Vedhas means reverberation. Vedhas are superior to humans, birds, living beings and plants. If the seed grows into a tree, then the leaves are beautiful. The dry and shrivelled leaves are also beautiful (green and yellow leaf, means maturity while young itself.). Realise how the plants smile by understanding vedhas. Even a neonatal will smile, by listening vedhas. There are children who do not forget vedhas. You don't think vedhas as fun. There are crores and crores of characteristics of vedhas. Vedhas are dreadful than fire. Water is an enemy of fire. You are an enemy of water. You can't live without fire. You can't live without water. If you realise this in life, and act accordingly, it is good for everyone.

The vedhas sprouts from prapancham [eternal world]. In this human world, vedhas sprouts from grains. We can realise through Finger millet and maize. We can realise through holy basil. [Thulasi, considered as a sacred plant in India] Oh human with legs and hands! Oh human! You have the sense to drink water when you feel thirsty! You have the sense to eat, when you are hungry. Then why do you wander around without any sense? I, God Yaghava is also suffering here. The Gods and Goddesses are also suffering. Siddhas are crying. Observe the Siddhas who relieve you from the sufferings of your body. Siddhas share their wisdom by means of water, Gods [munivars] share the destiny on your forehead. Do not have enmity after taking this human birth. Have only affection. You drank the water showered from sky, if you realise that water, you will attain the upper world without rebirth. In the upper world, even wealth of kings is not considered as supreme thing. It is beautiful to see the deers running fast. Where there is any sacredness in the skin of a dead deer? How vedhas are also similar to the beauty of the deer? Gods, will consider deers with life as superior. You can never get any benefits or good results by sitting on the dead deer's skin. You will get only bad results.

5000 years ago, people led a charitable life. People were affectionate and lived without religious devotion. Religious devotion is something that you worship out of fear and not out of affection. People's lives depend on their own endeavours. When there was no education, there was no famine. They were no enemies. Within 300 years only, you are roaming aimlessly even after getting old.

Because of your art, [movies, dramas] your world is confronting disasters. You forgot the real history. You were fascinated by religious theories., All of your sufferings are the outcome of your education., position, money and religious devotion. There are people who know the path of land. But there is no one to realise the path of destiny. If you could realise the seeds and destiny, you would have a great characteristic of soul. Have I not noticed how your pen and paper praise false stories in this period of time? You refuse to realise the words of truth. Without realising the truth, what is the use of having this human body? The vices, arrogance and ego were not there in ancient times..These vices started to appear only from the past 2500 years. As the period of monsters started, there was Kalingam. [war, destruction] You lead your life by thinking about charity. Do not think about anything as ridiculous. Till 2005, enmity, darkness and conspiracy, all such evil things will destroy the world.

People should carry on their duties without any riots, and if they do so, that is great. Right from 1986 in this world there is no one who can stop the destruction. The wrath of nature will cause devastation all over the world. Do not think of this as a story. Do not consider this as an imagination. It is good for human beings, if they respect the words of Gods and live accordingly. It will prove like a conformation to attain salvation at an early age. This is only like a preface of morals to the youngsters, so that they realise and avoid riots. It is great if you understand to be affectionate without enmity. Do not go against your parents. You will be blessed with good results if you do not forget your parents.

Those who pretend as Siddhas deceive people by performing magic... They are all traitors to the entire mankind... It is good if human beings realise and act accordingly. Think and realise, whether a faker was able to make at least a seed by using his magic! Did he give money or any wealth by using his magic? Did he resurrect a dead person by using his magic? These fake siddhas are like insanes in this world. They are thieves who rob your wealth. They are fools who threaten and also mesmerize mankind. From 1986, all the fake siddhas, sorcerers, astrologers who predict about the fake body, disguised monks and sages who plunder the money and wealth of the people will suffer. Do not think that I am lying. Think it is true. Your good knowledge exemplifies your inner self. If you realise yourself, it is a supreme bliss for you.

The period after 2005 will be very pleasant. It will be a marvellous period without enmity. and it will be a wonderful period. Famine-free period. The 48 crores of years after 2005 will be similar to that of ancient periods. If you understand your condition, you will get a good position. Then, enmity will not grow. The almanac and science will get destroyed. The divine sages of Nakshathra kaandam [zone of stars] will wander around the sky on flying saucers. Right from 1986, the divine sages of Nakshatra Kaandam will protect the virtuous people, by destroying many cities and harmful evils. It is only Gods who protect this human world. Do not read it like a story. Oh! human beings! If you realise and read this, all of you will get the peace of ancient times.

Saptahaaya shanthi. Sapthanuvaaya shanthi. Saphavaaya shanthi.
[Inanyam language]

There are three virtues -charity, wealth, and the third virtue is forgetting after donating. These virtues are considered the greatest of all. All are Ganges. [All have the characteristic of water] The Ganges [holy water of the holy well] is a miracle which was not witnessed any time before on this earth. Only a few days of suffering. This is what will happen from 1986 to 2005:

IN THE UPCOMING PERIOD, THESE ARE EXPECTED TO HAPPEN:

1. People will fight for land throughout the world.
2. They will kill and rob people for money.
3. Activities devoid of compassion, will happen throughout the world.
4. Women will be sexually harassed.
5. Men will be harassed by women in the upcoming years
6. Daylight robbery will increase.
7. Justice will fail. Injustice will proliferate.
8. Fire will rage. Everywhere there will be earthquakes.
9. There will be three different forms of lightning, thunder. It will dazzle in green colour. It will be yellowish in colour. Then it will be like blood red. Crores of people will die because of lightning after this.
10. There will be no season for rain.

11. Rivers and lakes will break up and their water will mingle in the sea. Water Mother will suffer. Children will suffer. Crops will dry. Farmers will suffer.
12. There will be riots in schools. Schools will be closed.
13. Justice will fail; Courts will be kept closed.
14. The ruling kings will go haywire, and will run away...
15. Throughout the world, the governments will become chaotic.
16. The wind will blow furiously in different ways.
17. Lot of people will come in flying saucers...
18. There will be a lot of destruction due to the development of science.
19. Due to the increasing daylight robbery, shops will be closed at the day time and will be opened at night.
20. For a handful of food people will cry aloud.
21. There will be different types of heat waves. Crops will get burnt due to heat. Many countries will be surrounded by fire.

There are so many things to tell. I am stopping myself from listing them. These are all due to your sinful activities, what can I do? Still, Dharma [virtuous people] will always be protected. Karma [evil persons, sinners] will be destroyed. Gods, Goddesses, Rishis [sages of the upper world] and Siddhas and God Inanya are eternal and they belong to the eternal world... Truth is your proof. It is the command of three people. Five people will carry out the orders. The consequences will be sometimes good, sometimes bad.

What can be done?
