

God Yaghava's ...

History of the retrieval of Aadhivedhas (original ancient scriptures)

God Yaghava's

History of the retrieval of Aadhivedhas (Original ancient scriptures)

English version of 'Yaghava Aadhi vedhathai meeta varalaru'

Origin of the Eternal world! [prapancham]

Billions of years ago

One day...

In the void,

And from the vast open space which

does not have any beginning or end,

The Eternal World [prapancham, abode of Gods and Goddesses, pleroma] was

Wonderfully evolved!

That was the time of the origin of vedhas!

In vacuity,

The eternal world

Manifested itself, countless times ago.

Its time and duration are something that is

beyond our concepts!

Brahma's Divine Writ! [Brahma Lipi, the divine writings of Lord Brahma,

The creator in Hindhu religion]

When this Eternal world was created,

The sun rose in the north!

In the dusk

The sun set in the south!

Though the eternal world is the

provenance of vedha,

Its creator is Brahma!

That scripture,

Is in Brahma's divine writ! [Brahma Lipi]

The Vedhas of the human world are three!

There are five Vedhas!

Pranam, Vasiyantham,

Sathyam, Ariyantham, Ukantham

are those five vedhas!

There are crores and crores

of divine books of Vedhas,

Among them,

Vedhas that belong to this human world

[Yugham] are only three!

Krantha, Kranthana, Kranthaha

are they!

Vedhas are common to all!

Vedha has no religion!

In the dawn of a single, bright sun,

its overflowing flood of light, pervades
throughout the world.

Likewise, Vedhas are

wide spread without any bounds!

It is a wind that blows by crossing

The fences!

In short

Vedhas are common!

The Custodians of Vedhas!

Goddesses [Devis] recite that vedhas!

I am saying firmly!

Women who adorn themselves with flowers,
are the custodians of vedhas!

Vedhas make the Earth functional!

When the sound of the ancient vedhas descended to
the earth, the waves appeared in the water!

The duty of those waves
is to make that sound of vedhas
reach the shore! Sit and watch on a
riverbank!

Its waves constantly,
beat, reach and scatter on
the shore for some reason!

Do you realise its hidden meaning?

From the rain, from the echoing
thunder, From the air, from the
sound of the waterfall

the sound of the vedha rises,

Can you hear it?

The sound of vedha

Is the movement of the Earth!

If that sound stops

Everything will stop forever!

Vedhas are sacred!

It is Vedha that filled the
honey inside the flowers!

It is also vedha that
add taste to the honey!

If a farmer sows a bundle
of grain It is only vedha,
which yields that as one hundred
bundles in return!

Vedhas are sacred!

Today's vedhas are just occultism!

What you have as vedhas
are only
occultism!

They are
chanted for dead bodies!

That which is chanted for wisdom is vedha!
I say, to help others

Is true spirituality!

Don't perform Yagna [a ritual in Hindhu culture]
by chanting manthras! [a collection of words recited to get divine
power] That's witchcraft!

That will help

Only to avenge others!

None of these are vedhas!

To say it in a single line,

In the past five thousand years,

What was considered, recited and followed,

Are not vedhas, they are only occultism!

Where is True Vedha?

If so,

What happened to the true vedhas?

Where is it?

I am referring

The Ancient vedhas which were
imprisoned 5,000 years ago!

By whom? For what?

To find the answers to these questions,

I have to untie,

Some fake knots!

Now, the time has come to unveil the truth!

Naradha's incarnation!

Brahma, Vishnu, Shiva,
Lakshmi, Saraswathi, Parvathi,
To All these six supreme Gods, and Goddesses
a desire arose!
They desired to have a "Santhana Puthiran,"
[divine son] That is, beloved son!
The result of that desire
manifested as Naradha!
The one who protects the human
world is our beloved Naradha!
Naradha is the one who circumambulates
all the worlds!
His only food is
Flower's wisdom!

Brahma is the master of all divine
powers! He knows everything about
Creation, Protection and
Destruction! Naradhar knows
only creation,
He doesn't know how to destroy!
Shiva knows only to destroy!

Shiva's Conspiracy!

It was a long-time desire
of Shiva to receive the
boon of creation!
Naradha was trapped in it!
Somehow, Shiva received
The boon of creation
from Naradha!

When Naradha gave the
boon of creation to Shiva
a big earthquake occurred!
Naradha was cunningly trapped
by Shiva, who received the boon!
Shiva imprisoned Naradha in water
and fire! Naradha who was blessed
with immortality liberated himself
from the prison again, and again!
By seeing this Shiva enraged!
By opening a big tree
into two
like a book
Shiva Imprisoned and locked Naradha
in it in such a manner,
that he could not
liberate himself from it!

Creation of Demons

After this,
Demons were created!
Demons with two horns, and with
Horns on the Forehead,
Harlots with thirty-four teeth started to
take birth in this human world!
Thadayavan [Head of the evil creations] was formed as
the Leader of monsters!
By destroying Dharma [virtuous people, good
deeds] Karmas [Sins, Sinners] grew!

Vedhas were reduced into ashes in yagna's fire!

In this situation
Shiva performed a yagna!
In this yagna's fire

vedhas were reduced into ashes!
At that time,
Heavy wind blew which could
devastate the entire world!
And the ashes of the vedhas were
Widely flew out in that wind!
On seeing this
One of the Goddesses of heaven,
opened the mouth of the sea
and placed the vedhas
Underneath it!
This is the story of
vedhas which were transformed into ashes
and trapped under the sea!

Incarnation of Yaghava!

After, when the vedhas
trapped under the sea,
Witchcraft was
created and grew!
Witchcraft started to spread everywhere!
When the Plants and birds
were happy,
The man's crying voice
reverberated in heaven!

When this world was
fully filled with sorcery,
The Gods started to descend the earth,
to destroy sorcery,
and all of them were imprisoned one by one by Thadayavan! The
imprisoned Gods have to be rescued!
Naradha has to be released!

Aadhi vedhas [ancient scriptures] have to be rescued
which were trapped under the sea!
When this question aroused,
'Who will do this?'
I started to incarnate on this earth!

The earth where you live
is hell!
As I decided to take birth
in this human world,
At that moment itself Gods,
Siddhas [mystics] and Goddesses started to cry!
"By wandering like a beggar,
By going around like a street dog,
By holding a begging bowl,
By licking like a dog
being tormented by others,
In the realm of thieves, being a Dharma [virtuous] even if you go,
will it not be a great suffering?
We will go"
said Rishi!

I know
My mission and my strength!

The distress of mankind!

The ants are happy!
The bees are happy!
Plants and birds
are happy!
Even the toad inside the rock is happy!
But I saw
man with six senses

Screaming and crying!
To uproot and throw out
the stratagem of the world,
I started my work!
This is the
beginning of my story
on this earth!

Fifty-fourth Birth!

I was killed in all of my previous
fifty-three Births!
My soul is bearing the quintessence
of all the events of my
Past-fifty-three births!
A wonder...
that occurred
in this fifty-fourth birth
is uncountable in words!
It was a Great War, which
I fought
under the sea!

Vedhas have to be rescued
from the sea! But,
The sea is so dangerous!
Once upon a time,
It was a den of the demons!
The plants underneath the sea
are dangerous!
There are hot springs too!
There are also some living beings
and eight-legged creatures which will
catch and destroy like Iguana!

The way of the upper world locked!

As soon as the vedhas were trapped under the sea
The three most important kaandams [zones of the upper world] were also locked!

They are,
Inalva kaandam,
Inaisththuva kaandam and
Igaiththuva kaandam! [names of the zones or worlds in the upper world] Only through these kaandams, Dharmas can enter and exit, from the upper world to the human world, and also, from the human world to the upper world.

Shiva and the giants locked
these kaandams!

After when these zones
were locked,

The tyrannical Kingdom of demons started to
grow! It is like a jubilation
for the demons, to frighten
people by inciting devils and ghosts!

Due to such incitements, people were
scared, of ghost, magic, wizardry,
sorcery

He started to worship
the snakes!

He feared
that he will be destroyed,

Worshiping snakes was
considered as safe!

The world was filled with illusion!

Before the imprisonment of Vedhas!

Before the imprisonment of vedhas
There were no
Temples in this human world!
People approached
Gods, and Siddhas
in their sufferings!
Their huts were flat!
These were the holy places in those
days, which relieved people from
their diseases and problems!

In those days,
there were no educated
in this world!
Every human being
Realized the wisdom of the Siddhas!

After the imprisonment of Vedhas

Only after the imprisonment of vedhas
Cupid Arts, lust and animosities
started to grow in this world!
By the command of the demons,
The giants carried and
brought large stones and
gathered them together,
And constructed temples!
Many of the temples
are mostly built
Only by giants!

Therefore,

I say,
tying the holy chord [an important ritual of hindhu marriage] by
chanting manthras should not be performed in temples!
If the holy chord was tied
in temple, then it
Should be soaked in water
And have to be tied again!

Predicament of Shiva

Even though,
Shiva created the demons,
At one point,
Demons' dominance became a huge
problem for Shiva!
In this predicament, he realized that
his desire to make
everyone to worship him
had gone wrong!
When he appealed in the upper world,
with regret, it was decided
to set right everything that went wrong!
To release Naradha from the prison,
To open the zones, and
To rescue the Aadhi vedhas [Ancient original Scriptures in Inanyam
language] that were trapped under the sea,
And hand it over to the upper world
became my mission!

Naradha released!

We gave a small spear
to Shiva! By chanting the divine lines of vedhas
'lgantha, lganthana, lganthavaa'
Shiva throws that spear
by aiming at the tree in which Naradha was imprisoned!

It ignited a great fire
from the bottom of the tree!
The tree fell down
by splitting into two!
Till then,
Naradha who was chanting in agony
from inside the tree as
Yaghava, Yaghava, Yaghava'
saw us,
and his face
brightened with joy!

By holding a staff on his one hand,
and kamandalam [Water bowl usually in metal or made out of mud] on his other
hand, Naradha who was released from the prison,
bowed me
And started to go to the upper world!

Locked Zones were Opened!

In the path of the upper world,
Two cobras were standing by blocking
the locked zones.
I said to Naradha
'As you reach these zones, I will loudly chant an excerpt of
vedhas. By hearing my voice,
Both of the cobras
Will die!
After that only,
the zones through which
Dharmas enter, will be opened!
Only after this,
I will go to the sea
to rescue the vedhas''

Everything happened
as I said!

Struggle to rescue vedhas!

In 1986,
by transforming my soul in to another,
I reached the coast of South Africa!
The coast of South Africa was fully filled with
Yellow stones and crystals!
When I went approximately one thousand miles
deep into the sea
I saw two giant fishes
staring at me with their penetrating sight!!
They are not fishes!
They are two in the form of fishes!

One was a giant who struggled,
but was not able to seize the vedhas!
Another was a God, who also struggled
but was not able to rescue
vedhas! The giant who was in
the form of fish recognized me
and suddenly
caught me!
When it swallowed me
till my neck,
I loudly chanted the divine lines
of vedhas!

“Kavana, Kavana, Kattanavaa”
Are those words!
When I said those words

That giant who was in the form
of fish burst, and scattered into
pieces!

On Seeing this

The God who is in the form
of fish was happy and
led me

To the deep sea!

Aadhi vedhas [ancient scriptures] rescued!

There

is only darkness

in the big caves!

While going around,

a wonderful cave

drew our attention!

Vedhas which had been

searched for five thousand years

were safe there!

As I took the vedhas in my hands,

and came to the surface of the

water, Goddess Parvathi was

standing there by opening her

hands like a lotus flower!

As I gave the

vedhas to her,

she handed over it

to Yagha prapancham [name of an eternal

world] As I rescued the vedhas

The five-headed serpent

Carried me

and led me to the shore!

The moment,

When I reached the shore

it died and drowned into the sea!
That was the last and only one
five headed serpent which lived on the
earth. It indicates that a great evil
which prevailed in the world has been
destroyed!

The day when the vedhas were
rescued, seven hurricanes blew
from the sea!

A big and bright orbit
appeared around the sun
for twenty-one days!
For one hundred and eleven days
It rained continuously!

Vedhas are being read in the upper world!

The vedhas which were placed
in Yagha prapancham [name of an eternal
world] on the third March of 1986,
were taken by the upper world!

The vedhas are being read
from there onwards!

To read a divine book of vedhas,
It will take seven years!

The divine books that belong
to the earth are three!

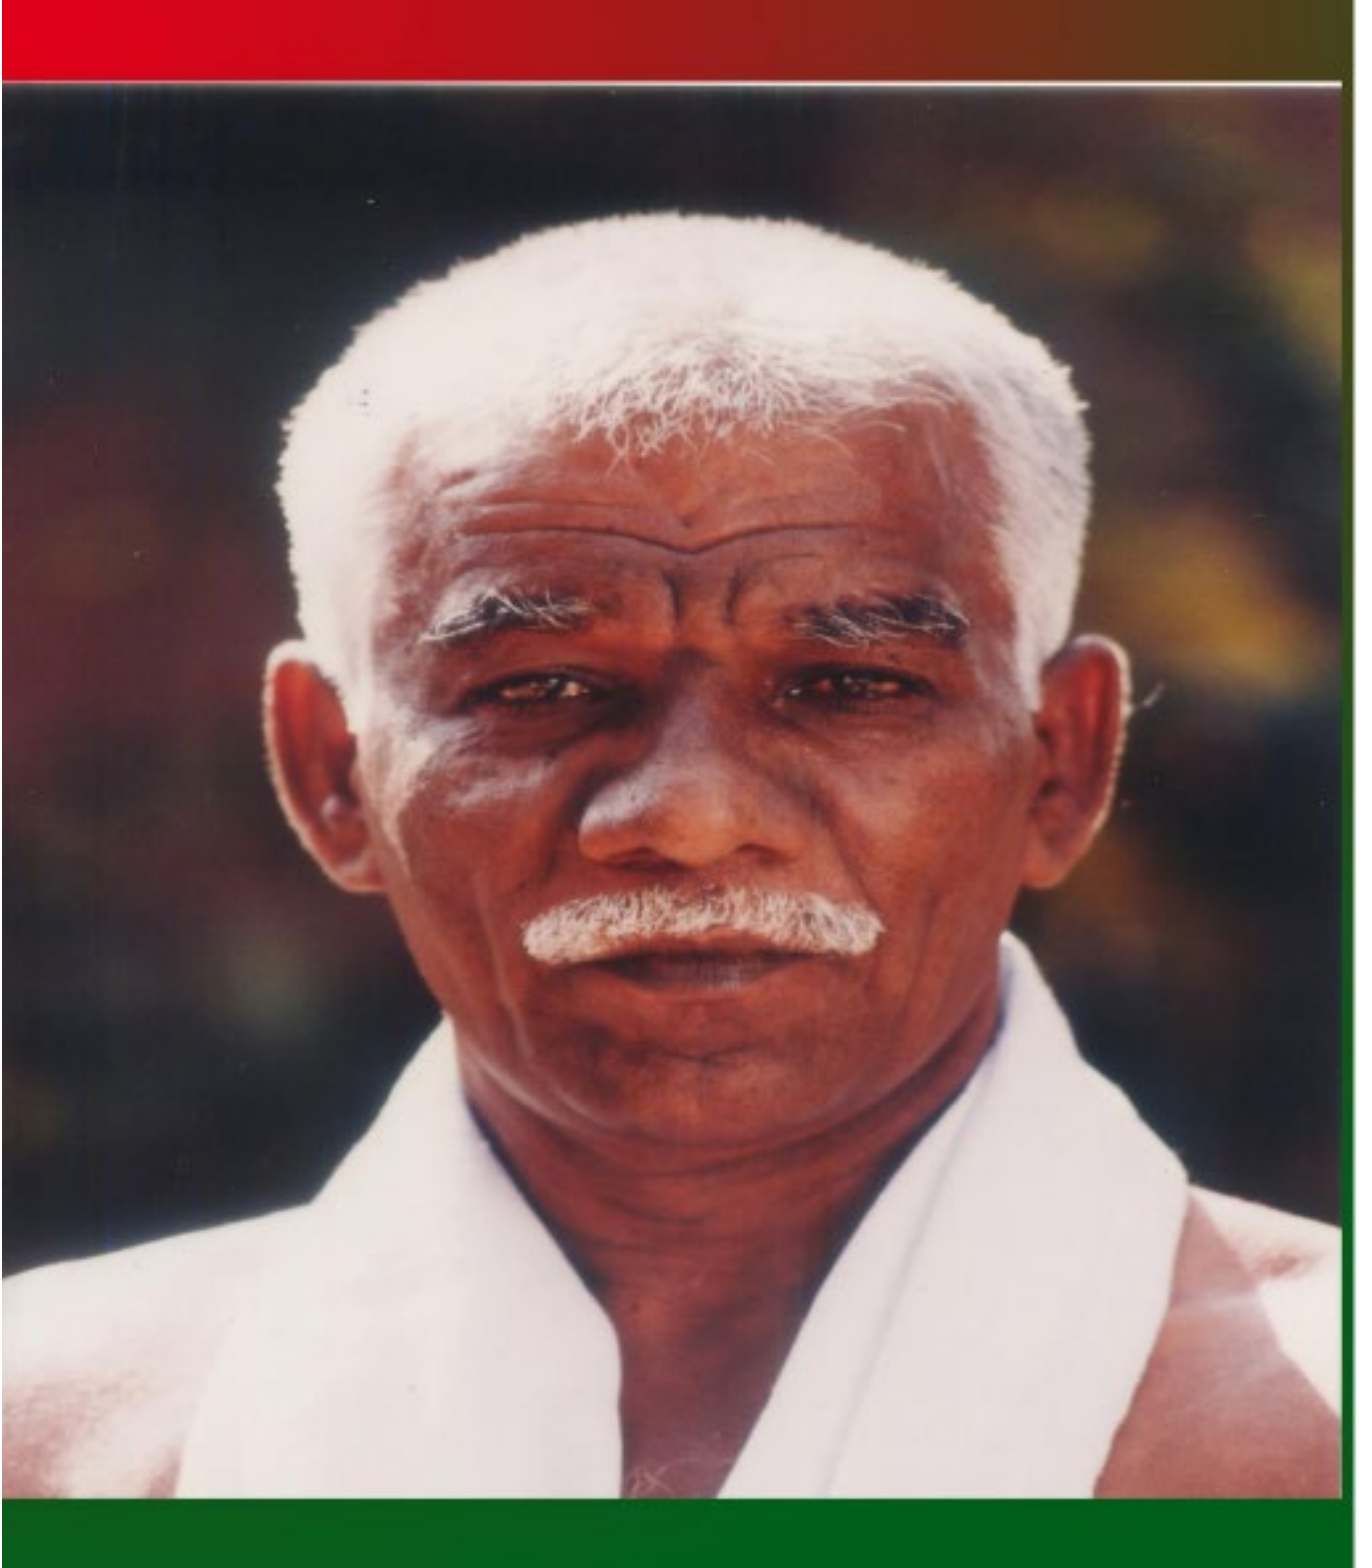

The day when all the divine
books are completely read,
that is on 2007, My Fifty-fourth
birth will be completed!

My first birth was
In the country of America!

My Last birth is
in India!
I can surely say
Nobody can shake
these two nations
at any time!

I came as a way-farer!
I am leaving by relieving
you from the misfortunes of the world!

This way-farer is not the one
who walks on the furrow!
The path he treads,
is the furrow for others to follow!
