Like this, God Yaghava is the one who bestowed us with thousands and thousands of lines of Aathma Vedhas. [ancient scriptures in inanyam language] He is the one who with his inherent spiritual philosophy, has come to uplift the life of human beings stranded and unable to find beautiful pearls in the routine life sea.

5000 years ago, temples did not exist or there was no history that temples existed. He claims that human beings worshipped the five elements of nature, and he had taken 54 births so far. He says his birth is no more.

God Yaghava was born to save the thirty-three crores of Gods and Goddesses who were imprisoned by the monsters who uttered vedhas [scriptures] that were not true to the human race, and also to destroy them. He was born to the couple Ilakkuvana Nadar and Isakkiammal in Ammanpuram, Nellai district and he was a philosopher and a recluse and enlightened by birth itself. Due to poverty, from dawn to dusk he worked hard, wandered and worked as a labourer for very less wages. Born somewhere, wandered somewhere, but succeeded at the place called Medavakkam in Chennai. Although he had never been to school, it is our responsibility to explore where the vedhas and philosophies are coming from an illiterate man. Educated people excelled in various fields have come to do research on him, but they were unable to come to a conclusion.

He talks about the secrets of birth. He talks about destiny. Gives answers related to salt and fate.

For humans, faces are different from each other, two genders and soul is one for all and he says, 'Don't boast that you know everything'. He asks us to realize and tells us not to be proud. He asks, 'We are born to die. What are we going to achieve in our lives by living mercilessly? I have drawn your fate on your forehead with 9 lines and nine letters for each line. Thus, your destiny was written and you are locked in your mother's womb'. He says 'After 300 days you are released from your mother's womb. Your destiny was written and locked in such a way that you couldn't realize it'. If you want to understand your destiny, you need to reach him for several days to find the answers.

"Acknowledge Wisdom and you will not get it unless you do a little bit of Dharma [charity, good deeds]. There is something called death. Realize that the body is mortal." says Yaghava. We must realise his true wisdom with affection which is similar to elixir, and also we must realise that his vedhas will pave the way for our salvation.

People used to extol and praise his miracles. When the rivers are flowing, he always keeps smiling gently, as if the sea water does not overflow.

Just like exquisite pearls are selected from the sea, this is a small attempt to bring out Yaghava's philosophies to the world from the vast sea of Aadhi Vedha Pranam.

Glory to God Yaghava!

# THE IDEOLOGIES OF SIDDHAS [MYSTICS]

Aadhivedhas, [ancient original scriptures] poetry, philosophies, wisdom which existed 5000 years ago revealed.

In ancient times, human beings and monarchs led a truly remarkable life. Godly incarnations offered sanity, wisdom, vedhas and their valuable teachings. In that period when temples did not exist, there were people doing good things and they were not doing Karma. [sins bad deeds]

In early days, the Mystics and Gods told men that the human body is fake. They said that there are 108 worlds in the universe. In those days, human beings realized their words and lived accordingly and attained salvation by performing Dharma [charity, good deeds]. They realized that this human world was a hell, and in this world human beings were aware of the existence of death and they lived accordingly.

In early times, monarchs, emperors, and human beings, worshipped the dwelling places of GODS. [MUNIVARS] Mystics [Siddhas] Gods, [Munivars] Goddesses [Mayas,Devis] will take birth in the human world, whereas Rishis have no birth. Rishis [sages in the eternal world] living in PRAPANCHAM [eternal world, spiritual world, upper world, abode of Gods and Goddesses] will never take birth in the human world. The mystics sat on the banks of the river, graveyards and dwelling places of the incarnations of Gods.

Gods, Goddesses, Siddhas [mystics] would hear what the rishis read in the divine book from prapancham and told the same to the human beings.

There are 333 MANDALAM [divisions or zones of the eternal world where crores of suns rotate] in the prapancham where Gods, Goddesses, Rishis and Mystics live. There are 108 KAANDAM [zones or worlds in the eternal world, where the souls of virtuous people live] for humans and 333 zones [worlds] for Gods. Don't think of this as an illusion, fantasy, and gossip.

On the earth, God Yaghava was born to destroy evil creations like Demon, Monster, Thadayavan [Head of the evil creations] and 21 Demonesses.

He came to this world to rescue 33 crores of Gods and Goddesses. Within 5000 years, in his 54th birth, he destroyed all the evil creations and 21 demonesses, attained salvation and reached the Prapancham [Eternal world, abode of Gods and Goddesses] on January 2, 1986.

He has finished his duties and is resting now. He was born as a poor person in all his 54 births. He took his 40 births overseas. He took his birth in India which is called 'Prapanchasthvam'. 11 births in North India, and 3 births in South India. All of his births aimed at salvation. In all of his births he was born as a shepherd and cowherd. He begged for food and slept in the graveyard. He carried the wood and mud. He used the donkey as his vehicle. He never went to school for studies, nor was he educated. He lived in adversity and enjoyed hard work.

In this human world, initially he was born as a human being, thousands and thousands of miles far away in the upper part of the world. He was born to a washerman in the northern part of India. There was a PORTIA tree. [a kind of Indian tulip tree that grows in the mountains]. Nothing happens according to human thoughts. This Yugham [human world] was filled with riots. At his age of five or six, [Mayanar] mysterious incarnation Yaghava was stunned. Until 1992, it has been 38,000 crores of years since this world was created. The

ancient period was happier and prosperous. The peace in the celestial world was experienced by humans also.

He sees the evil creations doing ruthless acts to humans and Gods. Around the world, he is transforming into different bodies and wandering around. He is a mysterious incarnation who has been transforming into different bodies along with his human body. As the Demons, the Monsters, Thadayavan and Demonesses got the boon from Gods, they also know transformation. In olden days there were Gods in the human world and in the eternal world who were blessed with three quarters of power as a boon.

In ancient times, immortal Goddesses took the form of large birds and large creatures and did good deeds to human beings. There were immortal godly incarnations also in the olden ages. Sanctity used to flow everywhere. The gold coin, the shine, the lights on the stones, and the stone was bright even in the dark. There was no discrimination based on religion. There was discrimination based on gender. (Male and female) There are many other instances where I was killed by demons in my various births. I have taken birth in all worlds. I see you with my one eye. I see monsters with my other eye. And with another eye I see all the worlds. [God Yaghava has three eyes and the third eye on the forehead is considered the eye of wisdom].

While transforming, the Demoness takes revenge on me by shifting in a snake form. Cowardly act isn't it? The brave warrior fights honestly in face to face war. The riots are the cause of desire. The desires are the reason behind the misfortune that happened to all the demon's creations. I have been victimized by others in many of my births. Wisdom never forgets and is aware of 53 births within 5000 years. I was never born in the king's palace in any of my births. Think for the whole day and be wise enough to get enlightened. When I conquered the Demon and the Monster in 53 other births and the time

when I overcame all the barriers and when I was about to win the battle with Thadayavan, the illegal women [prostitutes, demoness] avenged me, during my transformation, when my soul was at one place and body was somewhere else. In all the ages, my state will never be the same. I can stroll in the sky. On the other hand I can roam the world. The king sends out an invitation to scholars to compete in scholarship, poetry and philosophy, and announces the gold coin as a prize for the winners. Gold coin was awarded to the winners. This announcement increased competition to win this gold coin and this gold coin caused jealousy among the people. I was herding cows and sheeps, and I noticed all these things while transforming from one body to another. 3000 years ago, at the age of 6 or 7, wearing a Mundu [traditional Indian dress] I defeated Kongu, Sera, Chozha and Pandiya poets in the poetry competition and won.

The king gives the gold coin. I said, 'Oh king! Gold is not sacred'. So, the king was in favour of me. Over the next few days, the commander of the king forcibly poisoned me to death. 'You destroyed my body. Did you destroy my soul?' I told him this before my death'. 'Monsters and the Demons are inducing you. I am not killing you now, I will be born again to kill you. The king and the queen will suffer a lot. The poets and the scholars will also suffer'.

As it was, all my forty births perished. This is not a story. Not even an imagination. Paradise is nearby. Did your dreams ever come true? In the kingdom of Thadayavan [Head of the evil creations] the Asurathandavam [destruction] took place. The Gods who escaped from the creations of the monsters and the demonesses, were also killed. I was also killed'. Yaghava says that he has the vigorous strength to eat even a dead body to protect ethics and Dharma, [good creations] and he will go to any extent to protect Dharma. Two eyes for the monsters. Two eyes for the mystics and godly incarnations. Mayavar [Yaghava, mysterious incarnation] has three eyes. Think who is stronger and

answer. Spider? Scutch grass? [couch grass] or Nut grass [nutsedge]? The spider helps to feed the birds. Scutch grass helps to destroy the monsters. Nut grass is the Monster's creation. Yaghava says 'I will make the monsters skid in the scutch grass by making it as a creeper and kill them'. Killing with stone is a sin. It is a sin to kill by cursing others. It is better to kill the evil and wicked persons by stumbling upon the grass. The shepherd can understand the strength of scutch grass. The Gods and Mystics of that time helped the shepherd and cowherd and they continue to help till this day.

3000 years out of 5000 years, he failed in all his 40 births. The peacock feather is gorgeous. Is the song of the cuckoo sweet? The cuckoo which does not know how to build its nest? Dog protects its master. Will fox protect its master? Shadhu is air.

Shadhuna is water. Shadunayavayava is sound. Sound and soul are hidden inside you. Sound is destiny. Although 'Yadhuvayanava' is the ideal wisdom for the soul, your soul suffers in this world. Because of your mistakes your soul is punished. All these are written for the human race only. This does not apply to Yadhunayava. (God, Goddess, Siddhar,). The woman and Sadhu [mystics] are Sadhushvam. Mayavars [Tamil word that means Godly incarnations with mysterious, sublime powers] are the rulers of the soul, body, and destiny of humans. For 2000 years, [within 5000 years] though his actions became passive, his birth was as human. The place of his birth was not worshipped. His birth place was very humble.

The Eternal world on the one hand and the Human world on the other hand. Gods and Goddesses used to come with him in hidden form. When transformed into a human body, you can only see him as single. On his right and left were Gods and Goddesses. He has the same physical appearance as a human being. Demon will recognize him through his scholarship, wisdom, erudition, and poetry. Demons are

charmed by his simple poetic words. In the Monster's creation, a poisonous snake can be charmed by a magical pipe. So, Yaghava thought he could win by charming the snakes. [means charming the demons by his intelligence] Although the snake does not take poison as its food, it has poison in its ear. The snake only has four teeth. It bites the playing deer, without eating it. Later the deer will be killed by snake's poison. The birds and animals that ate poisoned deer would die. A little bit of poison, but the snake's poison kills a lot of birds and animals. Yaghava created mongoose to destroy poisonous snakes. He is the creator of upright and holy creations. Monsters' creations were evil and negative. Godly incarnations always had affection for the human race.

Day by day the strength of the Monster's boon was reduced. The boon of Gods is fire. To destroy it, Yaghava has many rituals like

Yadhuvanavam, Yadhushasham, Yagayadhanavashasham. [In any language] He has not given anyone full strength. It applies to Gods, Mystics, Goddesses. He knows that in this world, human beings will get blessings from Gods and they will dissipate their own human clan. He saw ignorant people breaking coconuts and reciting for it. Was that not enough? He looks at the human's work with his third eye of wisdom. He is a mysterious incarnation of God. The forehead eye which is considered as wisdom eye and the light that is generated from the wisdom eye placed in the pool as a bubble. Two eyes will be on human beings and his third eye of wisdom will watch the entire world.

'You can swim deep. Can you measure the seed of the banyan tree? Can you measure the seed of the peepal tree? Can you measure the seed of the fig tree? Can gooseberries be turned into fruit? These are the indirect objects in nature and it is a hidden wisdom for Gods. Though all these things in nature help Gods, they also help mankind. There are many secrets in his birth, who is like a companion to help

birds. Within 2000 years, in this age also, he was avenged in northern regions.'. The realm of the Demon is at its peak. The power of the Demon rules the world. The sufferings of humans on the other side. He came to the rescue of the Gods who had been taken captive by the tragedy. Yaghava's suffering during this process of rescuing Gods and Mystics cannot be explained in words. It's not as interesting as a story. Don't taste it like sugarcane water. You know the season of salt. Do you know its quality? Do you have a seed for salt? But there is an answer to every question.

The monsters turned Karma [sins and evil deeds] into Dharma [charity and good deeds] and Dharma into Karma. What does the thief know? Only to steal. The Demon's plan is to destroy and avenge Yaghava with his evil powers, ego, and authoritative powers with help of a scythe. The demons have many kinds of desire and lust. Like the lust of the women and the lust of the wine. There are seven wives for the Demon, seven wives for the Monster, seven wives for Thadayavan. Instead of drinking water, all these fiends drank human blood for their thirst. These are the works carried by the Monster's creations in the human world also. Yaghava knows everything. He desperately wanted to destroy the monsters. He does not want to see Gods, Goddesses, Siddhas and humans in 108 kaandams. He aimed to destroy the monsters and conquer them.

Although he lived in a tent with hunger, his aim was to destroy these evil powers by upholding Dharma [charity] and also to eradicate Karma [sins, bad deeds] through his hard work. It is good to study. Most of his sufferings were for the betterment of mankind. The Karmas [evil persons] are living happily. The Dharmas [good persons] are imprisoned in Yagha Yashya kaandam.[Name of the zone in the upper world where judgement is given] The Gods in Yashya kaandam were tortured by demons, and the Gods and Mystics recognize Yaghava. Yaghava asks

them to torture him. All the Gods disagree. He knows what will be their pain, if the Demon identifies him or the Gods and Mystics.

He was avenged in his eleven incarnations in northern regions. His scholarship, poetic talent, philosophy, calm and deep knowledge are the causes for his destruction. When the monsters came out of their disguises, the humans started screaming. Before they could retaliate, Yaghava gave the curse of fire [Agni curse] to weaken the evil powers. First he has to destroy the Demon, then the Monster, then Thadayavan, and then their 21 wives. He thought of destroying them with Shadunashavam (kindness) in his fifty incarnations. In the human world, with storms, air and water, evil forces compel and torture people to worship themselves as God. Good people have patience and dignity. Where there is no good knowledge there is only jealousy. Such was the nature of their evil character and in jealousy they are skillfully trained. These headless idiotic monsters only received half of the boons.

They got only three quarters of power. Even then, they are proud and arrogant for their partial boons.

So, Yaghava uses fire on the monsters. The frightened Monster asks his wishes and is willing to give anything in the world. When he gets closer to the Monster, the Monster is sure to be destroyed. Then at the age of 16, when he transformed into another body, he was lying under a tree. At that time someone cuts off his head. His soul was wandering in this world. He took his fifty second [52] birth. His fifty second [52] birth was different. Instead of taking birth like human beings from mother's womb, he takes Jivathuva birth. A parrot talks like a man. Goats talk in the shed. The elephant turns violent and enters the city. Like this, without taking birth, he transforms into Jivathuva birth [invisibly taking birth and wandering with birds and animals] and performs miracles with his divine powers. He wanders with birds by

transforming himself. To take 53rd birth, he mourns for humans and wanders for a long time.

Although he was born as a human, Goddess Vasiya [Goddess Lakshmi in Hindhu religion, Goddess of wealth and prosperity] and other Deva Mayas [Goddesses] were also born with him. Because his sufferings were unbearable. In the past, in times of distress, children shared the pain of mother and father. But in this Yugam [human world], more and more sufferings are happening in homes and around the world as children do not listen to their parents. The place where he was born will be a hideout and unidentified. He aimed at shepherd's houses, wood cutter's houses and the washer man's houses to take birth. Yaghava has no exemptions. Humans have exemptions. Human beings are born with their karmas[sins] but the mysterious incarnation of God Yaghava was to destroy evils.

He alone can destroy the monsters. He knows all about human beings, magic tricks and the ability of the monsters to transform from one body to another, just like a farmer who knows about cropping.

Thadayavan gives birth to these evil spirits with his boons. With the help of demonesses, he takes revenge on the good people. The answers are hidden. His first duty was to rescue Gods, Goddesses, and Siddhas from demons. He was defeated in all his 52 births. He was born in a cowherd's house on the western side of South India in his 53rd Birth. In all his births, his father and mother were tortured, the Monster and the Demoness did all these atrocities. Goddess Vasiya was also born. She was born 18 miles away from where he was born.

Yaghava says' Whenever I took birth, I was born as a second or third child. From the day my mother conceived me, words cannot express the sufferings of my mother. She suffered for a number of reasons. I and my wife [Goddess Vasiya] have born to win the monsters

in the battle. We see all the actions of these monsters and also worried. We also know that they do many sinful things to women. Together, we planned to destroy the powerful Thadayavan. We found out that he is in Igaithuva kaandam [zone's name in the eternal world]. We both feel the same. He makes his brothers, Monster and Demon, and their 21 Demonesses to be born as human beings. There was devastation in the world due to the outrage of human beings. By 2000 years [of 5000 years], all of this was happening. Dushtana Dushtana Dhunayanava [Inanyam language] is the name of the star and it is the way through which Thadayavan, enters the upper world. It is in red colour.

Thadayavan was transforming from one body to another towards that star. When he engages in battle of rebellion, he will make the sky furious. He curses to destroy the Gods by thunder, lightning and storm. He throws the storms and smiles at it. Criminals and ignorant humans in the world are trying to predict it as astrology and planets.

The reason for all this was the star named 'Avdhuuva'. I and my wife Goddess Vasiya have spent many years trying to prevent the destruction of the world. Monsters are deadly. They mesmerized the Gods, and the Gods granted boons to these monsters. These monsters terrify the whole world. We both and everyone, realises how ruthless they are! 2000 years ago, monsters got strength by evil intrigue. Because of the conspiracy of monsters, physical strength was high and strength of the soul was low.

In ancient times, the strength of the soul was three quarters,  $[\frac{3}{4}]$ , and physical strength was one fourth  $[\frac{1}{4}]$ . In adverse times, the strength of the soul was one fourth  $[\frac{1}{4}]$  and physical strength was three quarters  $[\frac{3}{4}]$ . It was stunning. We understood it's not easy to win here. In the meantime, monsters sends out the Demoness and serpents to avenge and destroy us." "We understood the power of the Monster, the evil power of Thadayavan, and the strength of Demoness.

It's hard to beat them in this birth. But there was no fear. I have the power to realize everything ahead of time about what will happen. Whom shall I tell ? I was not born in the king's palace. I was born at an ordinary man's house. Suffering on the one hand. My mother died at the age of six and the father at the age of nine. The same happened to my wife Vasiya's parents also. Monsters killed my parents in all of my births and he never left my parents and Goddess Vasiya's parents in any of our births. As per Thadayavan's instructions, monsters have imprisoned my parents in Inalva Kaandam. [name of the zone in the upper world]. In all my 53 births, he imprisoned my mothers and fathers.

In all my 53 births he imprisoned my fathers and mothers in Inalva, Inaisthuva kaandam and Igaithuva Kaandam [names of the zones in the upper world] in an underground cave. There are secret words to open and close the doors of these caves. The creations of the monsters also do the same work of taking revenge on others. The creations of the demonesses are all ruthless women. In all the 53 births, we have experienced only sufferings.

The curse we give is Agni. [fire] When I cursed them "Dushtar Dushtaya duvduvana dushtaya dhuvaya dhuvayadhuvana dhuvaye", [Inanyam language] monsters laughed at me. My birth has many secrets, many hidden meanings within it too. The reason is that it cannot be written in words. Religion is unnecessary in this world if you know the secret of my birth.

When I transformed myself from one body to another, I was lying on a tree. A Demoness looks at it and tells it to the Monster. The Monster asks to chop off my head. They killed my body when I transformed myself, and when my soul was alive. So I have to take another birth. My wife Vasiya cries in agony. What to do? Then she dies of a snake bite. I also experienced a fall in my 53rd birth. The Karmas

won. Dharma subdued. I am searching for a place to take my 54th birth. In any of my birth I was not born as a first or second son. I was always born as a third son".

Yaghava looks and behaves like an ordinary man. But his actions and words are not like an ordinary human-being. He is a mysterious incarnation of God. Yaghava says 'No one can grant me a boon. I have not granted boon to anyone. I have not done any penance to get boons. You have forgotten the eternal spiritual world and live in greed. Do you think you can get anything you want? If you can get anything like that, will you mind me? I was travelling around the world and looking for a place to take my 54th birth. I will always take birth in the house of good people full of unbearable miseries. What I know is that if I fail in my 54th birth, an empire of 3 or 4 feet monsters will come to the throne in 2000". "All the Gods vow to destroy the Monster and the Demons. In the human world, I took my 54th birth before the birth of the monsters. To the south, I was born a short distance from Kanyakumari seashore.

I recall all my previous births in my 54th Birth. It is not possible for ordinary persons to recall their previous births. All the Gods of the upper world, Saints, can realise their previous births. They live like a recluse in the world and die in adversity. Man reaches the highest position in all the worlds. I have been fighting with demons since the first day of my 54th birth ". "After a birth I took birth. [Yaghava was one among twins] There are many secrets hidden in my birth. I began to transform from body to body, from the day my mother conceived me. My mother, father and sisters were also suffering. There are many Goddesses and Gods doing Yadhunavanam [caring, loving] around my mother. I've been wandering in this world since I was born. Is it ever a failure? Will my 54th birth succeed or fail? Will Dharma Succeed? Or will Karma win? Will the rebellion succeed? Or Will the duty succeed? Let's see. Dharma is praised more than envy. In Yagha Yashya [place of

judgement], the life of Dharma [virtuous people] which is harmless is hailed. Knowledge is the right way of living in the world."

"In my 54th birth, I was born as a fourth child to Lakshmanan Nadar and Isakiyammal at Keezhapudhukudi, Vadakoor, Ammanpuram Village, Thiruchendur Taluk, Nellai District. I have two elder sisters and I am one among twins. I told the Demon that 'I will surely destroy you, your brothers, their wives, and your 7 wives'. He tries to convince me with sugar coated words.

He pleads, 'Yaga Yagaa, please don't do anything to me'. I said 'Dushta, Dushta, Duvanadushta.' [Inanyam language] I have come here from my eternal world, with my wife Vasiya and Dharkkamuni,[Lord Shiva] Gods and Goddesses, with my divine mysterious powers to destroy you and your monster race. In your realm, in my 53 other births, while I was transforming from one body to another, your people killed me cowardly. I will surely destroy you and your people in your kingdom". At the age of eleven, I captured the Demon, his soul, body, evil testaments, and imprisoned everything with the curse of fire and decided to destroy the Demon. There are a lot of answers within this.

I destroyed the Demon and opened the Inalva kaandam [name of the zone in upper world] Next, the Inaisthuva kaandam [name of the zone of upper world] has to be opened. The battle with the Monster started again. Yashya munivars [Gods of upper world] and Inalva kaandam's Gods stood with me supportively in the battle. I rescued and released crores of Gods, Mystics and Goddesses who were imprisoned by the Demon. I was very furious all the time at the age of 12. The monsters are also outraged. How can humans understand this? They only used to call me 'an angry person'. Someone who does not know about the action says anything. The humans did not understand the actions. Those who understand the actions will realize everything. Only the wise people can realize.'

At the time when the Demon was killed, I was working as a cook in Chennai. The Monster was destroyed at the place where I was born. When I was here in this human world, there were a lot of riots raging in the eternal world. I am fighting for the welfare of others. Not for the sake of fame, gift, or for promotion. I am doing this for the benefit of the wise good people, scholars and for their salvation. The battle began when I was 11 years old. The Gods, the Mystics and the Goddesses, whom I have rescued from the Demon are standing beside me on the right side and strengthening me. In the Inalva kaandam the chants to destroy the monsters and the chants to open the zones are kept secret.

Curses and words of fire are obscured for a number of reasons. The reason these words are hidden is that you will be greatly affected and suffer if you use these words. Words have a hidden meaning.

The Gods got partial boon. I know everything. I realized everything. As our own soul doesn't believe our body, like the soul, I don't trust anyone. I don't give full boon to anyone in this human world as well as to anyone in Yagha Yaghathuva prapancham.[name of an eternal world] War with demons is happening for a long period of time. I am going to Mumbai [North India] too. There I worked in Madhunga at Sri Ganapathi stores for some time and at Chembur for some time then worked as a labourer for 15 rupees at Sri Ganapathy stores in Vile parle. When I was in Chennai I worked as a cook for 5 rupees, and in Mumbai also I worked as a cook.

I was not afraid of starvation. But I was concerned for the suffering of the people also I worried about the people who torture others. Man revenges others twice for one small mistake. He gives two penalties for one act.

When I was 15 and 18 years old, I lived in Bombay for some time and returned back to my native place. My sisters have been married too. My name is Lakshmanan. Since I am one among twins, my elder brother's name is Raman and my parents named me Lakshmanan. I also have a family name. As my father's name was also Lakshmanan, my mother called me 'Muthu'. When I was admitted to school, they only mentioned my name as Lakshmanan. Only my name 'Lakshmanan' was registered there in school. I was hovering around ponds, trees, creepers and sheep grazing places. Working has become skillful art for me. I always help others. I don't expect help from others, I myself used to go and help people. Without disclosing anything, I will help others without letting others know. I do good things for others. People saw my act of destroying evil powers in a bad perception. But there are many reasons for this. This was done to safeguard Dharma.

I must destroy the Monster before my 22<sup>nd</sup> age. The Godly persons can calculate and visualize anything before it comes up. When I know all of the actions of Gods, Goddesses, and Mystics, Will I not be aware of the actions that humans do? Riots were continuing with monsters. He reigns in Inaisthuva kaandam [name of a zone in the upper world] like a king. His authoritative power turned into destructive power to him. What can anyone do? Do not think about ruling the world by destroying humanity, My 54th birth was on Sunday, morning, March 2, 1941. I started the war at the age of eleven, and at the age of 22, the Monster was avenged by my evil curse.

He was imprisoned in Inaishva kaandam. [name of a zone in the upper world] The Karmas were destroyed. Dharma is going to lead.

The Demon was imprisoned in Inalva kaandam [name of a zone of the upper world] and the Monster got imprisoned in Inaisthuva kandan. Two of the three zones of the upper world were opened. I captured and imprisoned both the brothers [demon and monster]. I

have to fight for 22 years with Thadayavan the strongest of all. I have to avenge 21 Demonesses, wives of these Demon, Monster and Thadayavan. I broke dry firewoods and sold them in the town. Being a God, I was subjected to a lot of suffering. So how much an ordinary human being should have to suffer? When I fought with Monster, people of the world saw the devastations like famine, storm, and heat. Only the creations of the monsters lived happily in that period. All of the God's creations lived in tears. If you think about those days, you can realize that.

I fought vigorously to destroy Thadayavan at the age of 24, and 25.

I took two bodies in the eternal world and one in the human world. I got married when I was 25 years old. I am not an ascetic. I have not done any penance. I lived my life by devoting a portion of my hard work to others. My marriage is not like it usually happens to human beings. There is a hidden meaning in marriage. Goddess Vasiya has always been my wife forever. At the age of 26 and 27 also, I was selling firewoods and wandering around. At the age of 27, I was subjected to many sufferings by the evil persons of the world. I will not harass anyone. I will never let the persecutors go unpunished. I have attained my 29th year. Still misery is chasing me. In Ammanpuram, I did the rice business that my mother was doing. The native relatives did not help. No help from the married family either.

I refer to this because 'True love is the concept and everything is written for your wisdom and realization' with kindness. 'That kindness and knowledge belongs to someone who has the characteristics of truth and righteousness. Make your ego efficient. Change your authoritative nature and be kind. Throw off your disguise. Unravel and show true affection. How do the birds, and other living beings live their lives? Do they live in disguise? Think. Living beings with five senses live

together and help each other. The man who is the wisest creature with six senses in the world refuses to live together in harmony. In olden days, people lived happily together. Throughout the 5000 years till 1986, I never saw anyone living happily and peacefully together. The reason is your arrogance. All these are written to indicate that you have lost your knowledge. This is a primitive wisdom. Following this will reduce your pride. Desire will decrease. This is the way of wisdom to increase the habit of your Dharma.

Guess it as destiny. 'Don't guess it as an answer. The soul, called wisdom, needs fragrance. You feel it first from your mother, then from your father. So realize that your parents are great and lofty people in the world.

You realize yourself, then you can realize the world. Understand that you need energy to gain knowledge.

Greatness and inferiority are limited to physical appearances. Soul is the same for all. Fertility lies in pure salt and in seeds. Is it there in your physical state? As for the air, the air is the only support. So just think, what is there hidden inside everything?

You must have the ability to help the world and humans.

Your mother fed you. Who brought you up? Your father. Who showered affection on you every day? Your mother and father! Realize that your mother and father are superior souls. Realize this fact at your young age itself.

What is the joy you have seen in this world? Think for a while! You are born, you live, then die one day. The seed will not rot but the fruit will rot. Likewise, your soul will never get destroyed. Just as wisdom is in the seed, so does wisdom is in your soul. If you help others without

any expectations, all the 111 eternal worlds will open the way generously for your good deeds.

Oh the intelligent clan! If kindness and affection becomes your skill, it is good for this world.

Pride and inferiority are for the body. The soul is the same for everyone.

You guess everything with your knowledge. Will you tolerate my fury? Will you tolerate my air? Will you tolerate my rainfall? Will you ever tolerate cold and frost? Will you tolerate heat? Can your body bear the fury of your soul? There are plenty of answers to this. Think.

Did ever seeds cheated you? Think about your soul for a while. A very small help to others also is very good for your soul.

The body knows the nature of the seeds. Likewise, the soul knows the fragrance of the flower. Do you think that your soul does not realize your deceit and your arrogance? Think! you will get an answer.

Desire is needed for kindness, knowledge, and charity. Helping others with that desire is good for the world (by your word and deed).

Oh man! Realize! Guess! Guess all the seeds as strong and vigorous. Which one has a pleasant smell? A seed or a leaf ? The smell of a flower is pleasant, or a fruit is pleasant ? Think. What is hidden inside everything? Your soul will clearly see the hidden things. Just make your body think a little.

Man! What are the things that have a wonderful taste and have an essence of sweetness? Kindness, knowledge, charity and philosophy

have that sweetness! Does the human body and its pretence and disguise have that sweetness? Think there is an answer.

Man! Understand yourself when you are young itself to find happiness. You will get all the goodness.

Oh Man! This is the way by which you can find happiness. That is Dharma. [charity, virtuous deeds] Dharma is wisdom. Philosophy is prosperity for you and gives all the goodness to your soul. Understand the goodness of air and the pleasure in water. Guess.

Time and Fate are ineffective.

Philosophy is in you. Dharma is also your deed. Realize that your body is an outcome of your Karma. [sins]. You think and realize your soul.

Man! I sowed only the seeds. Why are you sowing the seeds of religion instead of seeds? Is there religious fanaticism for seeds? What you don't realize is, your religion is an outcome of your arrogance. Seeds have the strength of knowledge. Your religion is nothing but your arrogance. Think!

Have you experienced any happiness while living in this world ? You are tired of living this life. The soul lives in misery. Have you found any happiness in this world? Think!

Man! If you have the good qualities like creativity, working ability, physical strength, wisdom, calmness, peacefulness, and imbibe these qualities as strength, this strength is ability. First think and realize yourself and then realize the world.

Be kind to others and also be kind when you speak. Words like arrows will create disparaging words. As you know everything, you speak calmly, gently with kindness and that is good for the world.

It is the characteristic of wisdom to speak the truth, to help others and forget it.

What do you gain by cheating others? Your soul is the air within you, which will give you pain, sufferings, agony and make you tired for deceiving others. The soul knows everything.

I found you affectionate when you were young. Later on, you become greedy for money, position then you are lacking affection. What are you going to gain in this world? Think!

I saw the tigers and the foxes hunting. I also saw your faithless drama that you are playing. What can the world do? Let your human body realize your soul. It is good for you and your world.

Man! Don't tell me that you know everything and you can do anything. You can understand your soul if you realize the knowledge hidden in a little seed.

Man, of course, money and position are required for you but you need honesty, kindness and affection also.

Those who lead you in a righteous way are noble. People who are kind and affectionate to others are noble.

Man! Suffering and famine are the result of your worst sins that you have ever committed.

Oh man! You are saying that, if you see the eclipse, your eyesight will go away. Have the beggars, forest dwellers, monkeys and many other living beings become blind? Your physical body is playing drama. Your soul knows that your body is pretending.

Man! You have learned everything. What has the air within you [your soul] learned? Realize!

Your soul learns knowledge only. You are boasting that you are learned. What have you learned? Learn kindness. That's good for the world. Think about the shepherd and cowherd. You can find all the answers.

Man! That which is like a shadow is air.

That which revolves is air

That which is with you is air.

That which makes you realize is air. It is air again which gives you punishment by making you realize.

Air is like duty.

Your wise soul is everlasting. You need to understand that realizing the self is good for the world.

Man! The soul tells the truth. Likewise, if the tongue that tastes the salt tells the truth without blabbering, and if the tongue tells to help others, it is good for the world.

Although the air in you is pure and prosperous, don't forget that it is also arrogant.

Your air hidden inside you can control your arrogance. Do not indulge in sinful activities.

Happiness or burdens of suffering, it comes only through your actions. Just think!

Man! What have you seen, possessed, experienced or gained in this world? If what you possess, what you say, how you act, are for good, then it will prove as a great benefit for you and also for the soul which dwells inside everyone. Realize.

If your actions and the words you say are for good, then the words you speak with all the goodness will prove as a benefit for all. The word which lacks action is bad for you. You eat only good food and consume only good things. Like that, helping others and forgetting that is a good deed, which is called 'Spiritual, philosophical Wisdom'.

You claim that you know everything! Do you know that your breath and the air combine daily? Think!

Oh humans! Realize the status of time and the status of duty. What is the status of mankind? What is the status of your human condition? What is the status of your words? It is not permanent. Ponder! In this world the status of a woman is very great as she is a mother. She has profound wisdom. Men learned that inner wisdom from women. Women are kind and affectionate. If men also follow the same qualities, there are so many benefits to the world.

Wisdom is that which is seen, understood and realized. When you saw your mother at your young age, you felt like you saw a flower. Don't forget your mother and father. Always take care of them.

Don't abuse your father and mother.

Mother and Father are the noblest form of truth.

Mother and Father are wise who personify wisdom.

You can see water, land, and grain. Have you ever seen the air? Your eyes see the abundant grains, plentiful water, aromatic earth with wonderful flowers. What makes your soul happy? Your soul delights while inhaling the fragrance of a small flower.

If the fruit ripens earlier does it reach the season? The seed can be obtained from the fruit only when the fruit ripens at the right time. Likewise, remember to be good natured when you are young. You need kindness, affection, and honesty forever.

The stealing crow, the singing cuckoo, and the cunning, inefficient fox! What do these living beings prove? How do the people who have eyesight guess? What is the status of a blind? What is the status of a deaf? What is the status of a dumb? What is the status of the air which is inside everyone? The air is one which is inside a blind, deaf and dumb. Think!

You see the birds flying. See the bird's strength to fly. How do they fly? Will the flowing and leaping science remain stable? Your science can never see the eternal spiritual world. Your soul can see only because of the Dharma that you do in this world. Think and find the answer.

Just as you saw, you consumed also. Did you realize the air? I am telling you to realize the air of your soul.

You saw a flower, inhaled its fragrance. Did you see the honey inside the flower? Bees gather the wisdom of the flower.[nectar]. Oh! Man! You need to gather wisdom called Dharma [charity].That is good for the world.

If you have the ability of kindness, it's good for the world.

A seed produces a tree, and that tree produces many seeds. A man can also enlighten many people like that. Guiding the world by one is called wisdom.

Does this world belong to you? The air is stable. Is your breath stable?

Never forget kindness in your early age. Never forget affection in your early age.

You need to share morals with each other.

You tell each other about charity. Advice to be knowledgeable and wise. Advice others with your good words. Advice others to be grateful and help each other. Advice others to realise the self.

Don't try to make this world as a toy by giving knowledge to a toy.

Whatever you say, think, know the action and then say.

Helping others is heroism. Say the heroic word of charity. Say the heroic word of sublime knowledge.

Learn to be affectionate. Don't be a snake.

The donkey will help the breeder. Another day it will help the eagle also. Think of yourself how you are?

What can you do? Realise! Predict what the future holds. The physical play is fake.

Oh! Man! Don't poison the word. Don't be suspicious.

Poison is in the tail of a scorpion. Poison is in the tooth of the snake. For you poison is in your tongue. Don't let your tongue stumble with your physical arrogance.

Although the world is inferior, you need to know how to speak with knowledge.

Peacocks are dancing, deers are running, and the snakes are also dancing, but only for a short time. But I am unable to say the inferior activities that you do in this world. What is the benefit of the actions performed by your body in this world? Think!

Man! Earn some dharma, [charity] like you add the material you earn. That is good for the soul.

The earth is indestructible. The zones of the upper world [mandalams] are indestructible. The seeds are indestructible. Like that, your soul is indestructible.

Oh Man! One has money, another has power, another has a begging bowl. Will the rich person respect others? Do you feel relieved when you hold a higher post? The man who has a begging bowl is begging every day and he is very much relaxed and he sleeps well. The ability of the soul is destiny.

Oh! Man! If you help the righteous people, it's good for the world.

When your soul sinks in the air, that is considered as your death. Where is your pride and authority? Think.

What did the seeds learn? They learned only to help you by its ability. You say that you have learned everything. What have you done to help the world?

You have seen the mushroom. You have seen sugar candy and mustard seed. What do you understand? Think! Is the mushroom stable? Mustard is stable. Sugarcane is not stable but sugar candy is stable. Think.

Birth, existence and death have a lot of morals to contemplate. When you get buried in the graveyard, there is no evidence. You are an 'Unfounded Man'!

Man! In this world, are you stable in spite of your capacity to speak? The soul functions even when it cannot speak. Taking the human birth is a punishment for the soul. Your mistakes in the upper world are the cause of your punishment for your living soul. You take birth in this human world as a punishment.

Oh man! Realize. Power is water. Knowledge is air. Wisdom is the flower. The advent of wisdom means the fragrance of the flower which disappears into the air. It is your soul that enjoys and contemplates this fragrance.

You were kind at a young age. Backbiting is inferior. Your rebirth is inferior. Be kind to everyone.

Man! What will burn? Realise! Fire will burn. Your ignorant and incompetent word will burn everyone. Your ruthless behavior and the sins you commit with your human body will burn everything.

Hey man! If you develop a helping attitude, truth, goodness and confidence at a young age, then you can live in this world without rebellion. Isn't it?

Think about godly persons who show you the right path. Always keep their valuable words in your mind and think.

Hey man! Prosperity is with you. The mature soul is also with you. The writings on your forehead, your destiny and the answers are with you. Astrologers are cunningly cheating you. Astrological almanac is a pretense. Oh sinner!

It is God's rule that a man can have only one spouse. Only one seed for a tree, likewise only one wife for a person. Think!

The kite is flying in the sky. Is a kite stable? Is your body stable? Your soul is stable! A stage artist wanders from place to place. If the enlightened wise soul in that artist becomes arrogant on the stage what will happen to him?

Think and realize. What did you gain by loving a serpent? What did you gain by admiring learned scholars? The word is more poisonous than poison. Know everything and guess.

Man! Your soul and body are like a kite and thread. Kite is in the air. The kite flies because of the air. What is there in thread without air? Will your body find happiness in the world by committing sin and revenge? Think!

With your learned knowledge you speak great, but self-knowledge through hearing and being sensible is essential for worldly life. For whom your little knowledge and silly words will help? It is similar to the music of Cuckoo.

Realize! What is true? What is good and what is not good. What are the hidden secrets? Is your body beautiful? Or, Is your kindness and affection beautiful? If your knowledge becomes beautiful, it is good for the entire world.

Oh! Man! Realize! You see the generosity of birds. You see the birds living as a community. Oh Mankind! You are walking in your path cautiously. You can even go on the way and follow the music of the birds. Isn't it ? Human race is superior. Destiny and the letters of destiny are written on the forehead of your human race only. Think and get an answer.

Man! Try to achieve everything in silence. See the flower's smile. See how the birds are living with harmony? What does the lotus flower in the pond look at? The land will never die. The water will never die. The air will never die. The sky will never die. Gold will never die. Seeds will never die. Your soul and your charity will never die. If you learn sanity at an early age, you will be relieved in this human world and upper world.

There is no age limit for Gods.

There is an age limit for grain.

There is no age limit for land.

There is an age limit for plants.

There is no age limit for water.

There is an age limit for your body.

There is no age limit for your soul.

Never forget that all that you have learned is a fake story. In ancient days people were not educated. There was no rebellion. People learned morals, well before 5000 years. You live a pompous life without any morality. You have lost your affection and live in religious devotion. There is an end to your body. No end for your soul.

If there is birth then there is death.

If there is death then there is birth .

There are also people without rebirth.

Realize what it is?

If you are kind and affectionate to others, there is no rebirth for you.

Knowledgeable people don't have rebirth.

If you work and help others, you don't have rebirth.

No one has found happiness in this world. Living in prison and living in the world are one and the same. If there is no suffering you will forget the eternal spiritual world. He who is educated is a thief. He who teaches the lesson is a wicked thief.

A pious man is a wicked thief.

Workless lazy person is a great thief.

The big thief is the one who tries to postpone everything for tomorrow.

The one without mercy is a great thief. He who does not realize this, is not wise.

Would the world have been in turmoil if you had learned the knowledge?

Look at the birds nesting happily on the top of the tree. Your entire body becomes a nest of illness because of your sins.

What have you gained by living in a palace then? You're going to die.

If you had done charity, you would have found peace in this world.

Your useless money and hollow body used for enmity only.

I was delighted to see the flowers.

I was delighted to see the purity in a coconut while breaking it.

I was delighted to notice the running water.

I was delighted to see the fish hiding in the water after seeing you.

I rejoiced when there was a downpour.

The sweet smell of ripe fruit made me happy.

I pondered when the rooster crowed in the morning.

I saw birds flying happily in the sky in the early morning.

I saw people rebelling for dumb money out of lust.

I saw that the vegetables growing on the land had a pleasant smell. I saw that the tubers growing beneath the land also had a pleasant smell. Sinner! I saw you running like mad. I found you shouting in agony, with your illness.

I am only punishing you for your sins.

I have seen you rebelling for the land.

But never seen anybody rebelling for Dharma.

You laughed in your childhood. Then I saw your lust and you are wandering miserably for money.

Is it not enough that I have seen fraudsters in your world becoming siddhas? [mystics]

All suffering came into the world through ignorant, fake monks.

All those who live in this world claiming to be preachers have lost their happiness.

Everybody worshipped God for the sake of money.

Don't trust wizards anymore. Believe in what God Yaghava says.

Astrologers will plunder your money. Don't get cheated.

Do not forget that the most deadly thief is the astrologer.

Whoever supports it, are all chameleons.

What do you think about the clowns who say 'God' lives in a bare stone?

Whoever comes by wearing a meaningless thread, with vainglory, is a workless lazy person.

I made termites fly at night.

Look at the termite that is ignorant of the time conditions. Oh! Humans! You can understand the time conditions. I made you born and I made you die. What can you do?

You don't have any compassion for others in your lifetime. You are showing sympathy for a dead person.

Monkey jumps and runs, but you worship a lifeless monkey statue. Sinner! Don't you realize it even a little bit?

You are searching and seeking for food. Why are you crying and seeking for the Lord? I pity you, how inferior is your human body?

Even the wisdom of the donkey is not there for the one who wears the saffron dress!

The learned cannot realize the Vedhas. The unlearned can realize the vedhas. Realize! There is an answer!

In ancient days, real mystics lived. All of the monks currently living are mad. I am warning human beings to be careful with these fake people.

In ancient days there was sign language. Then came the scribe. Now the pen instead of preaching knowledge has become the cause of destruction. Oh! Dim-wit! Realise!

He who has no knowledge calls himself savant. He who is ignorant of the time claims himself poet. He who doesn't realize himself claims himself a scholar. I feel pity for all the three of you!

Yaghava the wanderer sang the songs, and his poetry and philosophies were stolen by educated chameleons and they got the prizes and appreciated for their stolen wisdom. The spring water that God Yaghava talks about is a pool of water in the sky and in the ground. The rain water will never get spoiled. The groundwater will never get spoiled. The fountain of water which you have absorbed from your mother is sublime. [mothers feeding children] Mother was affectionate. Father worked hard to satisfy your hunger. Parents are embodiment of truth, and help you in this world. Worship your parents when they are alive. Help your parents first. Be wise. Be calm in this world. You will get peace in the upper world. Though the body is destroyed, the soul will never get destroyed. The soul takes birth. Upto 11 years old, it is called Aathmavam. After 11 years it is Yathma. Yaghathma after 41. Seed, flower, then fruit and again seed. Seek the answer within these.

Don't wreak vengeance.

Learn to be wise when you are young itself.

Don't deceive others.

Don't despise others.

Don't doubt others.

Treat others like your parents.

Don't trust augury.

Don't study false religious theories.

Don't do penance,

Don't believe in palmistry.

Don't believe astrology.

I confirm death in birth itself. My account will never fail. Your account will fail one day. Is there anyone who can artificially transform the letters of destiny which I wrote at your birth itself? My writings are natural. Your writings are artificial. Think!

Ya - Diseases will go away.

Ga - Famine and poverty will go away.

Va- Rainfall and prosperity.

There are six senses for human beings. Six senses. Why? Knowledge of burial of the dead is considered as your sixth sense. Man has the highest knowledge to help during burial ceremonies. Man has the knowledge to bury the dead person. This is the knowledge which makes you sensible. You are helping a dead person. Why do you retreat

to help others? Living beings have less knowledge compared to human beings. If they die, they have no strength or knowledge to bury.

But man has great knowledge. It is a disaster for you not to realize that birds live together. It can be devastating not to realize yourself.

Can an idol that does not help the priest help you? Has anyone seen the idol helping others? Think!

The soul will not go in vain.

Destiny will not go in vain.

Your body will go in vain.

Sometimes words give more pain than thorns. So pay attention to your words.

Your pulse is in your hand. Not in the tongue.

The plants will have thorns. Will there be thorns in the flower?

Your tongue speaks filthy words. As a result you are physically assaulted. And the tongue which is the reason for all calamities runs and hides inside the mouth safely.

The one who recites will recite.

The one who blows will blow.

Mourning for death,

Cannot bring the dead person alive.

Will the world survive if the dead survive?

The sky, the bird, laughs. There are many kinds of laughter. Don't laugh like a prostitute. The laughter of prostitutes ends in drama. Laughter of Dharma ends in wisdom.

If women become speechless and silent, the seeds will die.

Only the poor will understand the hunger of the poor.

There will not be any stain in the words that comes from a pure heart.

A Florist gives you flowers.

Will he give the wisdom of the flower? Think!

All those who are graduated and educated will wander like a mendicant.

It is better not to spoil others.

It is better to realize yourself.

It is better not to be hostile to others.

The six senses of humans are good forever.

The knowledge of burying the dead is good. It is one of your six senses.

The material is large. Charity is small.

Your soul is small. Your body is large.

There is a perishable body.

There are dead trees.

Will honey get spoiled? Think!

The desire of the frivolous is abundant.

Even if you don't do good deeds every day, do it someday. Don't think of doing karma.[sin]

The tooth is the enemy of the tongue. The word is the enemy of man. The elephant's strength is in its trunk. You have it in your tongue.

Yaghava gives a proper blow to the wicked. He who understands will realize properly. What will the ignorant do?

The hero's life reveals Dharma.

Charity is beautiful. In the granary, it is beautiful when the trees and crops dance in the air. Is the laughter of a prostitute, and her dance beautiful?

It doesn't look good if you laugh often.

The poetry of the learned reaches only your ears. Does it reach the mind? Try to understand the words of the real sages.

Only a real sage becomes a recluse. If a graduated chameleon becomes a monk, it was his sin that made him a monk.

Broken and scattered stones will help to build the corridor. If your child is helpful to you and to your world it is good only. What help did you gain from the statue you carved? Where is your thoughtfulness? Think.

The dog you raise up will be with you and safeguard you. If your children also take care of you, is it not a pride?

Your good deed is to show the world a better way to realise and think.

Only those who respect their parents will reach an exalted stage.

Do duty and gain fame rather than rebel and gain fame.

Oh man! If you give ear and soul to wisdom, there is no need for me. Let your knowledge be happy.

What have I seen and heard in this world? The Dharma [charity, virtuous people] lives an inferior life. Karma, [sins, evil persons] killers and evil persons rule the country like a king. Look at your soul [classified as 3] Athma, Yathma, Yagathma. From 1986, 1990. It will take revenge.

The medicine for all your sufferings is to realize yourself.

If you help others you can reach the heights.

Witchcraft is the culprit's play for their subsistence.

Your tongue cannot taste the sea water but your soul can inhale the air that comes from the sea. Think!

You spun the spin top. Can the statue walk? Guess!

Those who think about grains, will reach an exalted stage. Those who understand philosophy will get peace of mind. How can you attain an exalted stage by worshipping an idol? Think!

Oh man! Realize. As a donkey knows how to kick, the fake monks know very well how to cheat you. Realise and get an answer!

Oh man! Just as you wash your body and clean yourself, wash your impurities of heart and keep it clean.

Just as you wash your clothes and remove the dirt in your clothes, keep your mind pure, skillful, and affectionate.

The fake monks are all deceivers who don't do their duties. They are cheating people, by sitting on a deer's skin or tigers' skin with their legs folded [in a yogic posture] thereby exhibiting their half-wit and idleness.

Remember to keep your intellect pure in your adolescence.

The vedhas will not change your destiny. You will find happiness as a result of your dharma.

Oh man! Bear will bite. Ass will kick, then how can you expect goodness from a fox? Think!

Those with a fox temperament will not help. One day they will be kicked off.

Is there any story that the statue speaks? Think!

As you hear music and enjoy it, realising what is wisdom, and admiring it is wisdom.

Oh man! Your disguise is dangerous. Don't forget that your soul is very powerful.

Oh man! You realize. Before realizing, think and understand your actions .

Man! Truth has strength. Helping others also is a kind of strength. Do you have the strength in your designation?

Iguana has strength in the legs. Your soul also has strength. Your help is a great knowledge for the world. If your words and actions become good, it is good for everyone.

Man! Think to help if you have the strength.

If you are angry, think of helping others.

Don't become a slave of anger. Remember that your body is a slave to your soul!

Diminish your desire. Realize the knowledge.

Do not trust any person who is laughing often. Think also about the people who do not laugh.

Try to help others. If you help when you are young, your soul will be happy in the upper world.

Those who are concerned about the world and affectionate, will find peace.

Can anyone progress in life without hard work? Think!

If Butter and ghee are hidden in cow's milk, what is hidden inside you?

Vedhas are not great. Your destiny is far more powerful than vedhas. [ancient scriptures]

A seed is small. The tree is large.

Wisdom is great. If you realize yourself, that is the greatest of all.

Time is right. The crop is right. Farmers are protecting crops. God Yaghava is your protector who protects you and your deeds.

There are two genders. The race of the soul is one. Just like air, moon, water and sun are different in their forms, only the face is different from each other for everyone.

One hundred and eleven Dharmas [charity, virtuous people] are there. One hundred and eleven Karmas [sins, evil persons] are there. There are eleven kinds of universal wisdom [prapanchashva gnanam].

Like how you eat good things, think of everyone in a good manner.

Your tongue in your body has a lot of veins, likewise a seed also has veins. The star has the potential.

The soul that rejoices in your Dharma [charity], will it not observe the Karma [sins] you commit? Think.

The Mysterious incarnation's writings are ancient writings. The period of Brahma [God of creation according to Indian mythology] was 5000 years ago. Misfortune ruled the world for 5000 years. That time was destroyed. The day your mother conceived you in her womb, I wrote the fate which is called as 'Lipi'. Wisdom has many meanings. Your patience makes you tolerant. There is so much wisdom in Dharma. There are many births for the sins you do and you suffer a lot in this world.

The soil is created, then the seed, the air, the water, and the sound. The seed is given life then the seeds become holy. You are formed in air, when a man and a woman unite together, then your soul is placed in your mother's womb and your fate is written when you are formed. Then you take a human form and wander in this world as a human being. This human world is not a heaven. Heaven is the 'Eternal spiritual world', filled with purity. The earth was created 38,000 crore years ago. As a result of karmas [sins] committed by you in the upper world, you take birth in this human world as a punishment.

Do the work of charity [dharma] in this world to attain your place in the upper world. The eternal body in the upper world is permanent. Your soul which left that eternal body in the upper world, and living in your human body is permanent. The soul is stable. This is the case. Is there anyone who has kept this human body stable? You can achieve anything in this world through your labour. Yaghava says 'Nothing can be achieved by religious devotion. With dharma you can achieve anything. You will not be able to achieve anything due to penance. Those who are born, and those who are living, and those who gave you birth, will die one day. This is what we see in this world. The land is waiting for your mortal body to get buried. I am waiting for your

immortal soul in my eternal world. I am the one who gave you birth and death and wrote your fate at your birth itself.

The secret of birth is that I created different kinds of human faces. I created two genders. [man and woman]. Soul is one for all. I proclaim in my eternal world that ' Those who perform Dharma [charity, good deeds] belong to a higher caste and those who perform Karma [sins, bad deeds] belong to a lower caste'. Get answers correctly for your questions'.

The estimated age for your human body is one hundred years. You spent your fifty years in sleep. You wasted twenty years wandering absently here and there. The period of study, labour, and family life is twenty years. Ten years with illness. That is the time of your death. When your soul leaves your body, is there anyone on earth to stop it? Realizing this fact in this period will make this world prosperous like ancient days.

Perform the duty. Never do riots forever. Learn kindness at an early age. You cannot achieve anything by religious devotion or enmity. Your soul is the enemy to your body. Aathma vedhas [ancient real scriptures] are 5. Wisdom 1011. Fundamental Philosophy 1011. You can attain salvation if you follow it. Air is the way for Gods. Don't think that your physical beauty is real beauty. Your wisdom and knowledge should be beautiful.
