To YOU in particular and to all those of you born and existing on this planet, all this is being addressed and set down for your realisation.

Think that Love Eternal alone is sublimest. Never think of imposing authority. If you think or do so, I enjoin these on you as injunctions : from 1941, from 1982, from 1992 and from 1.2.1993.

It is ME, who unites fire and ether as water and ether do. From 19.4.93 total disaster looms large on this world. The reason? Your bloated ego. Heavens won't rain for it. Fire and ether will join to derobe you of your authority. Never should you revolt for land. Also for religion. Shun casting aspersions on others; also avenging anybody. Listen to me. Do not treat as fiction; nor as fanciful triviality. Celestial Worlds, numbering 111 are mighty. Human beings like you live there — Never at all doubt. Yaghava himself created those too. And this Earth, 38,000 crores of years ago. The Creator, Yaghava. He Himself. Till 5000 years ago the Primordial World remained well. Thereafter the sway of the devils (Asura Thandava). To quell and annihilate this on this Planet was the mission of His 54th Janma. He launched. He took birth as you here. Before 1983 in His 54th Janma, destroyed all the devils (Asuras) fulfilled the mission of His Janmas and reached Yaga Prapancha. Nothing here or anywhere could ever even act without Him. Never doubt this. All set down herein is for humans to realise now, in distant posterity and for ever. From 1986 onwards no one will ever hold on to power permanently anywhere on earth. This will go on till 2007. Since 1986 humanity will suffer from mutinies, famines, fires and from hunger. Let all take note of this. Rains will be rare and sparse. Your arrogance commands this disaster. Attempt not to decipher the spatial worlds — Now, ever, ever and ever. Your Science' nor you could measure these even in crores of years to come. Your Science can never bring about rains. Neither can it command the winds. Nor quench fire. Here you cannot live without water. Nor can you survive without land. No life without Air; nor without fire. Without ME nothing anywhere in the Cosmos will ever act. Fear not. IT IS ONLY ME WHOM YOU HAVE BEEN SEARCHING FOR. Cast closer your searching eyes — you will unravel. For this alone, I invited cordially Scholars, Poets, Pandits, Saints, Ascetics, Astrologers and even others at large. To forewarn the imminent disastrous famine I invited. I further invited people of different religions and others. This I did from 1986 to 1990. None turned up. Patience thus lost, I took on UVANAVAM, proceeded to UGRAVAM. To protect Dharma and to annihilate Karma, I commissioned and planted down 111 crores of Munis throughout. It is only ME. I only encountered running after futile education, running after money, power, pelf and position and not encountered anyone with compassion and kindness. From 1991 till 1993. For this, I brought down these Mayavas to quell Karma.

Yaghava Munivar

111 Crores of Munis from Inasthuva Kanda have already been implanted. From 11.5.92 onwards these Munis have been in the watch of 111 heavenly sleuths (Spies). It is 'INANYA MUNI' who characterises destruction. He will effect 'SARVA SAMHARA' (Total weeding out) of the Karmic Deeds. That is INANYA MUNI. Hereafter only at the behest of Yaghava, the protector of all the 111 lokas, will this earth function. 11 incarnations (Avatar) from 1986 till 1993. Bequeathed 11 Avatars to 11 persons. In these — and in the births so bequeathed 11 — there are hidden treasures. Still 100 more to come. I must perforce bequeath to them. All told, to 11 persons I must bequeath avatars in this yaga.

The tiller in single scattered seeds. When fully grown, became manifold grains. Many needed to take them ashore. Likewise in order to make this yuga prosper, I bequeath 111 Avatars (humans). It is ME Yaghava Munivar who does. These recipients shall be grateful. Never shall they be diabolical. Heeding to their profound gnana (Wisdom), worldly people will prosper. Times 5000 years ago shall be back again after 2007.

With the onset of sufferings, famines, starvations from 1993, and after its close, prosperity shall be caused by these 111 Avatars. Never entertain misgivings or doubts. All these 111 (Mayavas) shall disclose the PRANAS OF PRAPANCHA. These include both men and women. Also Munis, Women Mayas also. Gnanis of male faction too. The World shall function on their injunctions. These Ivayavas shall lead married life. Never that of renunciation. Alive or Dead, Yaghava prevails. The vibrations of Ants are intelligible to him. When even squeals of toads embedded in rocks are audible to him, will not your voice? Oh earthly men realise this. Tell these not as concocted. Take as duty. Realise. To bring back halcyon days he suffered in the spans now and bygone. It is he who vanquished the empires of Arakkas.

Fate is inexorable. The water lotus never fails to see ME. The fragrant flowers of the Cactus too could speak philosophy eloquently. Trees, Plants, even creepers do acquire knowledge. My light is eternal. The planet you inhabit itself is nothing but Hell (Naraka). Exchange good deeds amongst yourselves. Ingratitude shall never fetch you a begging bowl even. Once misdeeds committed never be disillusioned of forgiveness. For misdeeds punishment is there now and for ever. People 500 years ago read even the scribblings on palm-leaves. No offence committed. Never injured others. Is what I witnessed in my 54th birth in 1941 not sufficient? You learnt to make papers. Learnt to quarrel. Forgot to perform duty. Only thereafter commenced troubles. Is what from 1992 you have been suffering not sufficient? The very doer of all these is only ME. Ask what more am I bent on doing. Only these.

Mother will suffer : child too. Crops will go dry; the farmer too. Day robbery will wax. Women molested. Don't you run amuck drunk with religiosity? On this score, several crores will die. Excessive heat will claim further Crores. Famine and Starvation, several more. Your science, so falsely glorified will wipe out myriad crores of lives; and earthquakes too several more. Munis will appear in flying saucers. Their blaze blind many. Millions die on lightning and thunder. Severe earthquakes on ocean bed gaping open the dwellings of Munis Mayas and Gnanis of yore. Never think as concocted the foregoing doings of Yaghava and 11 crores of Munis purported to quell Karma. All these have been set down on you as your duty.

Of you and its spans you are not the realised one. Those Ancients tasted bliss. Also attained loka. 5000 years hence sufferers reeled under Asura Thandava. In this interregnum of 5000 years, Munis, Mayas and Gnanis were conquered by Arakkas, Asuras, Thadayas, Rakshashis. With the avowed purpose of venging them Yaghava Muni descended. Only in the 54th Janma he vanquished them. Reached Prapancha. All these written amidst innumerable questions and answers — herein concealed too — Not fictitious ones. Take with love supreme, oh humas, and with knowledge. Shun thoughts of destruction. Nor think as trash. What you have learnt is not purposeful. Discharging duties alone is the real purpose. Let all your deeds be noble ones. I shall see them. Flowers in all do bear honey. The bees store honey at a select place. Likewise realise as fragrance not as arrogance. Your Dharma is never dying. To quell your egoistic Karma, I shall lie in wait in 111 crores of Munis. While alive, I shall kill Karma and when dead too. Take not as illusion. But as reality. All 111 kandas (Lokas) fare well. From 1986 onwards no ghosts, no black-magic, no influence of planets or eclipses.

Not realising your true self is inglorious. But Realising alone ennoble you.

WM Arava Munivar

You proclaim that this earth will Vanish in 2000 A.D. Certainly not. But it is certain you will perish — and your physical frame too. But your imperishable soul is everlastingly glorious. Seeds will never die. So also your soul. Get into the core of this.

The day the flowers loose their fragrance, girls their puberty, and the honey its being in flowers, the World will perish — if at all it should, in 2000 A.D.

This earth is the prison house of all the lokas. Do not be carried away by beauty. Conceive wisely. Do deeds of wisdom. Love sublime — unbounded bliss — to your life. This alone is the way to avoid repeated births. Realising yourself alone ennobles you.

The only means of your gaining peace is through Dharmic deeds, never through Karmic ones. Where humans indulge in Karmic deeds, I shall effect births of children with deformities, hunch back, blindness, dumbness, polio and deafness; further kill the body with life in it. Ponder on these. All these is for your spares. Never perform futile yagas for them. Never be carried away by fake religious people. My utterances shall never go false. Sage Yaghava has had no formal education here. The cumulative age of this Sage Yaghava in all his 54 Janmas is 5000 years. Humans on this planet undergo sufferings all these 5000 years. If you are vengeful in the name of religion, might or authority, there is the system of laws encoded in Prapancha in 1941 — Keep this in your heart bay and act with due fear. Whoelse is that one referred to and so anciently proclaimed by the Munis, Mayas and Gnanis of yore as far above them all to guard Dharma and quell Karma — doubt not — it is this Sage Yaghava. Doubt not. The Dharmic elevated — The Karmic degraded.

SAGE YAGHAVA ON THIS PLANET

— Born in human form — Tended sheep and cattle in boyhood — turned mendicant — also wood cutter — never attended school — was killed in infancy itself in all his 53 earlier Janmas — by Arakkas — Reached Loka Prapancha quelling (The Arakkas, Asuras, Thadayas, Rakshashis) only in the 54th Janma — while still leading here a normal marital life — Born in one place — wandered somewhere — settled elsewhere. It is at yet another place that his soul relinquished its body — replenishing itself with another — Therefore, oh humas, shun violence — Realise wisdom — The earth waits for your body while it is ME, your life in the lokas -

Embedded in these are countless questions and innumerable answers.

Translator's Note : The above is a fairly faithfully rendering in English of the written statement made in Tamil by Sage Yaghava. Sage Yaghava uses very cryptic and condensed language and some of His terms and the citations in the INANYA language used by Him cannot, by their very nature, be translated in any language as they elude common comprehension of any translator. The purpose of this translation is to bring in the overall spirit and substance in its pristine purity in as faithfully a manner as is humanly possible.
